

# Anti-Semitism

## Introduction

Anti-Semitism is a big topic today. As a result of accusations of being Anti-Semitic, Jeremy Corbyn is being slowly destroyed and his leadership of the Labour Party wrecked. You can see him visibly ageing over the last few weeks.

Being accused of Anti-Semitism can get you put in jail in Germany<sup>1</sup> but elsewhere it can result in losing your job, losing your reputation and being reviled in the media.

But what exactly is Anti-Semitism and what does allegations of it, and penalties for it, do to free speech?

The Oxford dictionary's definition of Anti-Semitism is: '*hostility to or prejudice against Jews*'. But this poses various questions such as: what defines a Jew? What right has a government to select one people group (not a race) for special treatment above everyone else? Why does this not apply to the majority of Semitic people (Arabs)?

I will evaluate a number of issues concerning this subject.

## Potted history

Anti-Semitism was a term coined by Wilhelm Marr in 1879 to identify anti-Jewish campaigns in Europe and this was first recorded in the English language in 1882. Even dictionaries and encyclopaedias<sup>2</sup> recognise that the term is inappropriate, since it logically includes Arabs, but the term is restricted to Jews alone.

Anti-Semitism has existed since ancient times wherever Jews relocated to other countries. Jews were discriminated against in Hellenic Greece and thrown out of Rome by Emperor Claudius. Muslim nations see Jews as their enemies after the example of violence against them by Muhammad, who beheaded 70 Jewish elders in one day in a public ceremony in front of his 9-year old wife. The Qur'an calls for their extermination.

Historic Anti-Semitism is stated, by Jews, to be baseless discrimination and prejudice but (outside of Muslim persecution) it was usually due to Jewish crimes and social isolation. Jews segregated themselves from local communities which created suspicions. However, it was often their usury, perjury, anti-Christian beliefs and even sedition that led to actions against them. This is why Jews were cast out of multiple European countries throughout history, such as England (1290),<sup>3</sup> France (1306), Portugal (1496) and Spain (1492). In modern times Jews continued to be expelled, such as from Russia in the 19<sup>th</sup> century and Germany (1930s).<sup>4</sup>

However, there were occasions when Jews were cruelly attacked, with whole Jewish populations of towns being massacred. This happened in certain German cities for example.

<sup>1</sup> Recently an esteemed historian in her 80s was jailed for questioning the Holocaust in an academic fashion.

<sup>2</sup> E.g. Encyclopaedia Britannica.

<sup>3</sup> Expelled by King Edward I.

<sup>4</sup> This was after Jews declared war on Germany, assassinated a diplomat and instituted a global boycott.

Whenever the truth about the Talmud became clear, which teaches foul crimes<sup>5</sup> and blasphemes Jesus, Jews became targets of social denigration. Martin Luther originally favoured the Jews and urged rulers not to be violent towards them. But after he read the Talmud he wrote vehemently against them and urged their removal from German states for the public good.

Unusually, Oliver Cromwell viewed Jews with leniency and welcomed them back during his Protectorate after nearly 400 years absence in the mid 1650s. This may have had something to do with borrowing money from Jewish bankers to pay for his army during the Civil War; however a rabbi Menasseh ben Israel made a powerful case for resettlement. The English Reformation after 1530 had already initiated social changes that benefited Jews, such as anti-Catholic policies, and the rise of Millennialism brought Jews to favour. Jews were also generally tolerated in Italy.

In recent years Jews have been protected in western nations, especially after their sufferings in WWII. Germany treats Anti-Semitism with vigorous sanctions (jail) while America has seen Jews rise to power in every area of social life, despite being only about 2% of the population. Jews are also very prominent in British life and power structures.

In June 2018 America tabled a bill called '*The Anti-Semitism Awareness Act of 2018*' (S. 2940/HR 5924). The broad definition of Anti-Semitism within it meant that criticism of Israel was a crime and this actually contradicts the US Constitution. Federal law already prohibits Anti-Semitic discrimination and harassment but the powerful Jewish lobby in Congress wants more. This bill was previously introduced in 2016 and passed in the Senate without a hearing or debate, but then thrown out by the House of Representatives. This is the second attempt.

This shows the way that powerful Jews are pushing national agendas. They want Israel to be above criticism and politically impervious. Claims of suffering Anti-Semitism are a means of doing this. California is currently considering making it illegal to criticise Israel in colleges for example.

Thus Jews have gone from being expelled and attacked in multiple nations since the Iron Age to being in positions of great power in the west. Jews in the west have never been in such a privileged and powerful position. Are Anti-Semitic claims justified?

## What is a Jew?

### **Jews are not a race**

Firstly, it is important to state that Jews are not a specific ethnic group or race; Jews are identified as those following a variant of Judaism.<sup>6</sup> It is a religious terminology, not racial or ethnic.

In fact, racial characteristics are subjected under Jewish identity, as with: Ethiopian Jews, Yemeni Jews, Syrian Druze, Russian Jews, Spanish Jews, European Jews, American Jews etc.

So you cannot be a racist if you criticise Jews. The term is not applicable.

---

<sup>5</sup> It advocates paedophilia and incest. It authorises killing Gentiles. It supports lying to authorities, defrauding and stealing from Gentiles, it is misogynistic etc.

<sup>6</sup> Zionist Jews, Secular Jews, Orthodox Jews, Torah Jews, Karaite Jews, Sabbatean Jews, Kabbalistic Jews etc. Some of these vehemently oppose each other.

### **Most Jews are not Semites**

Then there is the fact that the majority of Jews today are not Semites at all. The majority [up to 95%] are called Ashkenazi Jews and they stem from a Turkic-Mongol people in the area around modern Belarus/Ukraine who converted to Judaism in the 800s AD. This has long been understood, even by rabbis in the 19<sup>th</sup> century and modern Jewish historians, but recent genetic DNA analysis has proved it conclusively. [See my papers explaining this history.]<sup>7</sup>

The majority people and the ruling authorities in Israel are Ashkenazi. Therefore, you cannot be Anti-Semitic or racist if you criticise Ashkenazi Jews or Israel; it isn't possible.

## **What about Jews criticising other Jews?**

### **Jewish groups are Anti-Semitic against other Jewish groups**

Jews are combative people and they routinely attack each other. The minority Jewish group is called Sephardim Jews and these are persecuted by Ashkenazi Jews within Israel. In reality this is a case of Anti-Semitism performed by 'Jews'. Sephardim are Semitic (though not Israelites) being Idumaeans (Edomites).

This is a serious case of so-called Jews castigating and harassing a Jewish minority even to the point of persecution; yet no one says a thing about this. Despite this being real persecution, real hate crimes committed by Jews every day, no one in the media cares; but Jeremy Corbyn is fair bait!

Multiple groups of Jews criticise other Jews to the point of protest marches and demonstrations. Torah Jews hate Zionist Jews. Secular Jews (many of young Jews) also criticise Zionism which they recognise as causing wars and violence. Zionist Jews condemn Orthodox Jews.

Are these cases of Anti-Semitism? If not, why not? Why are Jews not accused of Anti-Semitism?

## **Why are Arabs not included?**

Arabs are a Semitic people having descended from Abraham's son Ishmael. In fact, Arabs have a more direct tie to Abraham than Ashkenazi Jews who are not even Semitic, let alone Israelite.

The fact that Jews (Ashkenazi Jews at that, which is what almost all Zionists are) have cornered the market on Anti-Semitism is ironic since Zionists hate Arabs and have waged war with them, or persecuted them since 1948 on and off, but they are not Semitic at all, but Arabs are. This is a classic case of deception which is frequently used by Jews: their secret service (Mossad) motto is '*by deception conquer*' and their sacred text (Talmud) teaches them to deceive Gentiles, who are less than human and worthy of bad treatment.

If a British Arab castigates a British Ashkenazi Jew he could be accused of Anti-Semitism and suffer grave consequences; yet the Arab is the Semite and that Jew is not. The whole policy is insane.

---

<sup>7</sup> E.g. 'The Depths of Deception', 'Modern Jews are not Israelites or even Semites' (Truth Bomb).

## Jews and Palestinians

### **Jews are Anti-Semitic against Palestinian Arabs**

Jews hate Palestinians. Actually, I will qualify that; Zionist Jews and Ashkenazi Jews in power in Israel hate Palestinian Arabs. Many secular young Jews are starting to form protest groups to protect the rights of Palestinians.

Now the ruling parties in Israel are Ashkenazi, that is Turkic-Mongol people by ethnicity and not Semites. When these persecute Palestinians they are persecuting real Semites. Thus Israel commits Anti-Semitism every day.

What western Christians need to realise, when they support Israel committing war crimes and atrocities against Palestinian people, is that many Semitic Palestinians are actually Christian by heritage. They come from a line of Christian inhabitants of Palestine going back to the time of Christ. Though they form a minority against the Muslim majority, they are still present.

Thus we have the irony of western Christians supporting the Turkic-Mongol ruling powers in Israel killing Palestinian Christians; including children and babies without remorse.

This is the worst kind of Anti-Semitism and it is committed by 'Jews'. Why does the media not get agitated about that more often, yet Corbyn fills the front pages day after day?

## Jews and Syrians

Israel hates Syria and wages military strikes against it continually; 200 in the past 18 months. This is why Zionist-dominated America has illegally invaded Syria setting up multiple military bases, such as around Idlib, to facilitate Israeli attempts to annex parts of Syria for the 'Greater Israel' plan. Both Israel and the US (plus NATO) support and fund the terrorists that have been waging war in Syria (ISIS, Al-Qaeda, Al Nusra, Al Zinki etc.). At this point in time the US has threatened massive airstrikes against Syria if it threatens the al-Qaeda terrorists in Idlib and is willing to precipitate war with Russia that has equally threatened to support Syria. The US is willing to risk world war in order to further the illegal foreign policy plans of Israel.

There are two things to bear in mind here. The first is that Ashkenazi Israel (non-Semitic) wars against Syria, which is Semitic. Aram was a son of Shem (Gen 10:22) and thus Aramaeans (Syrians) are Semites. So Israel is Anti-Semitic in attacking Syria. Secondly, there is a large proportion of Christians in Syria who have been protected by Assad along with other minorities. Israel, directly through airstrikes and indirectly through supporting terrorists, is responsible for the deaths of many Christians.

Western churches need to wake up.

## Why Jews?

### **Jews get preferential treatment – this is discrimination**

We have to ask why Jews are singled out for this special treatment.

In a liberal society where everyone is treated equally there should be no special treatment of any single minority. The very principle of penalties for Anti-Semitism is contrary to liberty. It is favouritism.

Britain has laws against discrimination, such as discrimination against women or Gay people, yet its policies on Anti-Semitism are discriminatory. Britain (and Europe) discriminates in favour of less than 300,000 people in the UK (less than 1% of the population), giving them priority above everyone else.

We treat our military veterans like dogs. We ignore the plight of 4 million children in poverty and starving. We ignore the millions that are suffering mental health problems who can get no medical service due to government cuts (mostly young people). We ignore the thousands of children that commit suicide every year. But a religious group of 300k people gets special treatment above everyone else; you cannot criticise this group without penalty and castigation. This contradicts Common Law, Magna Carta and the Bill of Rights. We are also willing to spend millions on airstrikes against Syria, which is no threat to us, as well as resourcing the terrorists that kill Christians in Syria. This is contrary to our Constitution but it supports Zionism.

### **Free speech**

Accusations of Anti-Semitism are an attack on free speech. You are not permitted to say anything considered as Anti-Semitic, even if you are just reporting plain facts. Ken Livingstone stated some facts about Jews in 1930s Germany, facts that were widely reported as fact in Jewish books and journals, yet he was vehemently castigated for Anti-Semitism and expelled from the Labour Party. These are the tactics of a totalitarian government.

Christians are assailed every single day and their Lord is blasphemed every day in all forms of media. Yet no church is crusading for the arrest of such people for hate crimes. Christians just tolerate the offence. Yet say something offensive to Jews and you can be arrested and jailed if it is considered a hate crime.

Jews get more social and legal support than Christians, yet Christians formed our nation, our laws and social structures, and form the majority of the population, yet 300,000 people who have lived here in tiny numbers for 350 years get priority.

### **Holocaustianity**

Now some will say that the reason for sensitivity about offending Jews is the Holocaust. In fact that is the reason usually given for stealing the land of Palestine and giving it to people who only ever ruled over the Unified Kingdom of Israel for less than 300 years, 3,000 years ago. Even the Crusaders ruled over Jerusalem for nearly a 100 years. The land has been owned by Assyrians, Babylonians, Persians, Romans, Greeks and various Muslim clans; Muslims ruled over it for nearly 1400 years. Jews have no special right to this land.<sup>8</sup> But that is a digression.

Is the Holocaust a good reason for having laws about Anti-Semitism?

Laying aside the counter claims about the Holocaust (that 6 million Jews did not die in concentration camps by gas etc.) we must say that all nations in Europe suffered a holocaust, some much worse than Jews.

Official figures state that 6 million Germans died but the figure is far higher; some estimate as many as 25 million Germans were either killed, raped, forced to flee their

---

<sup>8</sup> The promises of God to Abraham are centred in fulfilment in Christ, not Jews (though OT Jews are not the same as modern Jews anyway; they were Israelites, modern Jews are not). In any case, Abraham was to be the father of **many** nations not just Jews; that's what his name means. Jews failed God in being missionaries to other nations and instead were full of pride, idolatry and rebellion and thus were rejected by God (Matt 21:43) and Jesus prophesied that they would be crushed to powder and left desolate (without issue). Modern Jews are not God's people in any sense at all.

homes forever, or were wounded.<sup>9</sup> Getting on for half a million were horrifically killed by Allied bombers in Dresden in a few days alone (many simply melted into floors and roads). Over 6 million Poles were killed. Over 25 million Soviets were killed. There were even over a million Yugoslavs killed.

Why are Jews given special treatment? Why are Jews given precedence over Poles for example, or Russians, on the basis of suffering? Why are there no Anti-Russo or Anti-Pole offences?

The answer, of course, is that Jews make up a high proportion of the global elite that really rules the world. The bankers, corporatists, rulers of the media / Hollywood, senior politicians and lobbyists contain very many Jews in positions of power. For example, nearly all the US Press is owned by Jews. Hollywood is owned by Jews almost entirely. The media organisations are mostly owned by Jews. The heads of banking and financial corporations are Jews and the owners are Jews. It goes on and on.

It serves the purpose of the ruling elite to have special protections for Jews, even though they comprise about 2% or less of western populations. There is no other reason.

## What should be done?

The chief principle of a civilised nation is civil liberty within the bounds of Common Law.

Thus freedom of speech must be safeguarded above many other matters. One should be able to say what one believes even if it is offensive to some. As long as the speech does not deliberately incite people to break the law, it should be accepted and not stifled.

Thus criticism of Israel for its crimes against Palestinians is fair game (which is what Corbyn has done); no Jew should be offended by stating facts about war crimes. If they are offended, then that is not a matter for lawmakers or even civil law.

Everybody should be treated equally and with respect; no favouritism should be shown to anyone, whether they are female, transgender, Gay or Jews. All should have the same standing.

## Conclusion

The root cause of all this is not offence caused to Jews; in fact many ordinary Jews are tired of charges of Anti-Semitism by Zionists; they want to be left in peace. Zionist witch-hunting does ordinary decent Jews no good at all. Ordinary Jews get on well in society and are fully integrated; the problem is Zionists and Kabbalist Jews in positions of great power.

The root cause is yet another global elite tactic to spread dissension and create civil disruption. They also want to get rid of Corbyn and fear a Labour leader that has not yet been corrupted by blackmail or perversion and therefore cannot be controlled. Discussion of policies regarding raising taxes for the rich corporatists and bankers will not be tolerated by the elite, which is what Labour have been doing.

Of course there is no hard evidence (why would there be any incriminating evidence identifying a secret service?) but this smells very much like a Mossad operation. Most people are unaware how far Mossad controls British and American politics and even the

military. MI5/6 are closely interrelated with Mossad. Senior military officers in the past have stated, on retirement, that they were actually working for Mossad when they followed orders from the MOD / MI6 / the PM and the CIA / US President.<sup>10</sup> Many false flags are actually jointly controlled by the CIA/MI6 and Mossad. Currently, America and NATO are acting on behalf of Israel in their wars, coups and regime change operations (e.g. Iraq, Syria, Yemen, Somalia, Libya, threats to Iran etc.). These incursions make no sense otherwise; these nations are no threat to Americans or Britons. MI6 is also behind the false flag chemical attacks in Syria that precipitate military attacks against Assad and also controls the White Helmets who are actually camouflaged terrorists. Another of these chemical attacks is around the corner according to US Senator Richard Black and the Russian Foreign Ministry (they were also correct in predicting earlier attacks). This is the Zionist tail wagging the American dog.

Senior Israeli politicians have openly stated that Mossad uses the charge of Anti-Semitism as a '*trick*' to divert public attention and put a stop to someone in their way.<sup>11</sup>

Anti-Semitic policies and sanctions are not a weapon of toleration; they are a weapon of despotism.
