

# Bad governance displeases God

The level of iniquity being expressed by the current, and recent, governments is off the scale

## Introduction

I have condemned all sorts of government policies in recent years, such as lockdowns, furlough, vaccine mandates, facemasks, social distancing, artificial creation of inflation, anti-religious laws, anti-freedom laws, and so on. In fact, many of the Covid measures had nothing to do with medical care but were control measures as a test by the Elite cabal to see how far they could push social compliance before kick-back. Sadly, the nation just accepted every stupid policy with just a murmur. The way is prepared for totalitarian, fascist government with little resistance.

The new Labour government of Sir Keir Starmer is taking this even further and faster than expected (and we knew it was going to be bad). It is riding roughshod over the implicit freedoms established in Common Law over 2000 years and the written principles in the Constitution established in the Bill of Rights 1689 and the Coronation Oath. Despotism (in the past represented in monarchs; today by Parliament) is opposed to the superior Common Law going back to Magna Carta. The actions of recent governments are illegal.

Government policies today are so incompetent, stupid, egregious and facile that it is hard to understand how the executive survives without collapse and popular revolt. Everything the government does causes damage to the social and cultural infrastructure of the nation. The country is being disembowelled by the death of a thousand cuts. But worse, there is a clear satanic agenda behind this dominated by the powers that really rule the world behind national government.

The actions of the Starmer government are so serious and so swift that it behoves me to give some analysis of this so that people can see how dangerous this situation is. But first we need to fully understand what God's requirements are of a ruling power.

## The divine command to rule wisely, righteously and with equity

### The government must not pass wicked laws but must honour God's law

Shall the throne of iniquity, which devises evil by law, have fellowship with You? Ps 94:20

Woe to those who decree unrighteous decrees, who write misfortune, *which* they have prescribed to rob the needy of justice, and to take what is right from the poor of My people, that widows may be their prey, and *that* they may rob the fatherless. What will you do in the day of punishment, and in the desolation *which* will come from afar? To whom will you flee for help? And where will you leave your glory? Isa 10:1-3

For the statutes of Omri are kept; all the works of Ahab's house *are done*; and you walk in their counsels, that I may make you a desolation, and your inhabitants a hissing. Mic 6:16

Now therefore, be wise, O kings; be instructed, you judges of the earth. Serve the LORD with fear, and rejoice with trembling. Kiss the Son, lest He be angry, and you perish in the way, when His wrath is kindled but a little. Blessed are all those who put their trust in Him. Ps 2:10-12

### **The justice system must be unbiased and righteous**

How long will you judge unjustly, and show partiality to the wicked? Ps 82:2

Rulers decree justice. Prov 8:15

*In* the place of judgment, wickedness *was* there; and *in* the place of righteousness, iniquity *was* there. I said in my heart, 'God shall judge the righteous and the wicked'. Eccles 3:16-17

Those who handle the law did not know Me; the rulers also transgressed against Me. Jer 2:8

Many rulers have destroyed My vineyard, they have trodden My portion underfoot; they have made My pleasant portion a desolate wilderness. They have made it desolate; desolate, it mourns to Me; the whole land is made desolate, because no one takes it to heart. Jer 12:10-11

I will break in pieces governors and rulers. Jer 51:23

### **Government must not oppress the weak and must be righteous**

If you see the oppression of the poor, and the violent perversion of justice and righteousness in a province, do not marvel at the matter; for high official watches over high official, and higher officials are over them. Eccles 5:8

Those who handle the law did not know Me; the rulers also transgressed against Me ... And walked after *things that* do not profit. Therefore I will yet bring charges against you,' says the LORD. Jer 2:8-9

Many rulers have destroyed My vineyard, they have trodden My portion underfoot; they have made My pleasant portion a desolate wilderness. they have made it desolate; desolate, it mourns to Me; the whole land is made desolate, because no one takes *it* to heart. Jer 12:10-11

Woe to those who devise iniquity, and work out evil on their beds! At morning light they practice it, because it is in the power of their hand. Mic 2:1

And I said: 'Hear now, O heads of Jacob, and you rulers of the house of Israel: *is it* not for you to know justice? You who hate good and love evil; who strip the skin from My people, and the flesh from their bones; who also

eat the flesh of My people, flay their skin from them, break their bones, and chop *them* in pieces like *meat* for the pot, like flesh in the caldron.' Then they will cry to the LORD, but He will not hear them; He will even hide His face from them at that time, because they have been evil in their deeds. Mic 3:1-4

For her rich men are full of violence, her inhabitants have spoken lies, and their tongue is deceitful in their mouth. Therefore I will also make *you* sick by striking you, by making *you* desolate because of your sins. Mic 5:12-13

Thus says the LORD of hosts: 'Execute true justice, show mercy and compassion everyone to his brother. Do not oppress the widow or the fatherless, the alien or the poor. let none of you plan evil in his heart against his brother.' But they refused to heed, shrugged their shoulders, and stopped their ears so that they could not hear. Yes, they made their hearts like flint, refusing to hear the law and the words which the LORD of hosts had sent by His Spirit through the former prophets. Thus great wrath came from the LORD of hosts. Zech 7:9-12

And I will come near you for judgment; I will be a swift witness against sorcerers, against adulterers, against perjurers, against those who exploit wage earners and widows and orphans. Mal 3:5

The rulers of this age, who are coming to nothing. 1 Cor 2:6

### **The need to care for the poor, weak, and vulnerable**

Do justice to the fatherless and the oppressed, that the man of the earth may oppress no more. Ps 10:18

I know that the LORD will maintain the cause of the afflicted, *and* justice for the poor. Ps 140:12

Do not rob the poor because he *is* poor, nor oppress the afflicted at the gate; for the LORD will plead their cause, and plunder the soul of those who plunder them. Prov 22:22-23

'What do you mean by crushing My people and grinding the faces of the poor?' Says the Lord GOD of hosts. Isa 3:15

### **God gives sinful governments over to delusion and stupidity**

Surely the princes of Zoan *are* fools; Pharaoh's wise counsellors give foolish counsel. How do you say to Pharaoh, 'I *am* the son of the wise, the son of ancient kings?' Where *are* they? Where are your wise men? Let them tell you now, and let them know what the LORD of hosts has purposed against Egypt. The princes of Zoan have become fools; the princes of Noph are deceived; they have also deluded Egypt, *those who are* the mainstay of its tribes. The LORD has mingled a perverse spirit in

her midst; and they have caused Egypt to err in all her work, as a drunken man staggers in his vomit. Isa 19:11-14

Therefore, behold, I will again do a marvellous work among this people, A marvellous work and a wonder; for the wisdom of their wise *men* shall perish, and the understanding of their prudent *men* shall be hidden. Isa 29:14

He leads counsellors away plundered, and makes fools of the judges. Job 12:17

The LORD brings the counsel of the nations to nothing; He makes the plans of the peoples of no effect. Ps 33:10

Disaster will come upon disaster, and rumour will be upon rumour. Then they will seek a vision from a prophet; but the law will perish from the priest, and counsel from the elders. The king will mourn, The prince will be clothed with desolation, and the hands of the common people will tremble. I will do to them according to their way, And according to what they deserve I will judge them; Then they shall know that I *am* the LORD!' Ezek 7:26-27

For it is written: 'I will destroy the wisdom of the wise, And bring to nothing the understanding of the prudent.' Where *is* the wise? Where *is* the scribe? Where *is* the disputer of this age? Has not God made foolish the wisdom of this world? 1 Cor 1:19-20

### **God judges rulers**

The kings of the earth set themselves, and the rulers take counsel together, against the LORD and against His Anointed, saying ... He who sits in the heavens shall laugh; The LORD shall hold them in derision. Then He shall speak to them in His wrath, and distress them in His deep displeasure. Ps 2:1-5

He shall cut off the spirit of princes; He is awesome to the kings of the earth. Ps 76:12

He pours contempt on princes, and causes them to wander in the wilderness where there is no way. Ps 107:40

Your princes are rebellious, and companions of thieves; everyone loves bribes, and follows after rewards. They do not defend the fatherless, nor does the cause of the widow come before them. Therefore the Lord says, The LORD of hosts, the Mighty One of Israel, 'Ah, I will rid Myself of My adversaries, and take vengeance on My enemies'. Isa 1:23-24

It shall come to pass in that day *that* the LORD will punish on high the host of exalted ones, and on the earth the kings of the earth. Isa 24:21

He brings the princes to nothing; He makes the judges of the earth useless. Isa 40:23

I have cut off nations, their fortresses are devastated; I have made their streets desolate, with none passing by. Their cities are destroyed; there is no one, no inhabitant. I said, 'Surely you will fear Me, You will receive instruction' -- So that her dwelling would not be cut off, despite everything for which I punished her. But they rose early and corrupted all their deeds. Zeph 3:6-7

And the kings of the earth, the great men, the rich men, the commanders, the mighty men, every slave and every free man, hid themselves in the caves and in the rocks of the mountains, and said to the mountains and rocks, 'Fall on us and hide us from the face of Him who sits on the throne and from the wrath of the Lamb!' Rev 6:15-16

## Bad governance in recent times

### A short summary of the sins of the Tory governments (2010-2024)

I will limit myself to a few bullet points. The various Tory governments since 2010 under David Cameron (coalition gvt.), Theresa May, Boris Johnson, Liz Truss and Rishi Sunak were indeed terrible. They abandoned true Conservatism, ignored their root support in the Shires and became more Left-wing progressive than Tory. As a result they lost their core voting base and the Red Wall Socialist voters that had placed trust in them to secure Brexit. To this they added many sins:

- They committed to wasting trillions of pounds on the Net-Zero fake scare that will de-industrialise Britain, make the poor poorer; make the rich richer; and leave us energy poor. But it will enable the control mechanisms for totalitarianism.
- Lockdowns: putting the population into effective house-arrest and establishing virtual martial law with Gestapo policing; ruining a generation of kids in multiple ways.
- Closing down places of worship.
- Furlough scheme: guaranteed to wreck the economy (which it did), collapse small businesses; create future inflation; create work-shy employees now established to work from home.
- Facemasks: a sign to demonstrate compliance to despotism. It had no medical value but is medically dangerous.
- Social distancing: a measure created to reveal compliance to authoritarianism. It had no epidemiological purpose (it followed NO science).
- Test and trace: despite wasting millions, this was ineffective and served no purpose other than policing compliance to social measures.
- Vaccine rollout: pure evil. Vaccines were unnecessary for a fake disease that only the very sick and over 83-year olds were at risk from. The vaccines were not tested properly and the test results were negative. They were never safe. Neither were they effective – as no vaccine has ever been for a coronavirus. Yet the many toxins in the vaccine have now caused millions of deaths and more millions of adverse reactions including very serious conditions.
- Vaccine mandates: making vaccines compulsory to do certain things, such as get on a plane, enter certain venues, do certain jobs, gain entrance to night clubs etc.
- Watering down Brexit.
- Presiding over the worsening migrant crisis.
- Paying billions for migrant support but doing nothing for British military veterans or the British homeless.
- Creating the highest tax rates in living memory.
- Enlarging the state bureaucracy.
- Pursuing WOKE agendas.
- Enacting measures to restrict free speech.
- Developing Hate Laws that create discrimination.

We could continue but enough has been stated. All the Tory governments were appalling and will answer to God for the harms they have done.

Bad as the Tory governments were, the Starmer government demonstrated that it is even worse within the first 50 days. There is a clear Communist agenda being rolled out to secure an authoritarian government.

## The Starmer government (2024-)

### Facts about Starmer

- He is a member of the Trilateral Commission.<sup>1</sup> [Thus he is part of the Rockefeller totalitarian agenda.]
- He publicly stated that he preferred being involved with the WEF Davos set<sup>2</sup> than in British government because he could get more done of global significance.
- He is a committed Marxist and member of the Fabian Society.<sup>3</sup>
- He was Director of Public Prosecutions (head of the Crown Prosecution Service) when the police brought forward a case against Jimmy Savile; Starmer dismissed it.
- He also dismissed the case against the accused paedophile Cyril Smith despite 80 pages of evidence against him.
- He was in authority when the Post Office scandal was brewing and could have brought justice – but did nothing about it.
- He has a proven record of the most egregious lying imaginable and cares nothing that there is video evidence of this lying.
- In power, he has proved to be completely incompetent.
- Within weeks in power both he and senior ministers were scandalised as a result of receiving gifts worth thousands of pounds. Starmer had received more freebies than any other MP in the same period valued at over £100,000. One donor was given an access pass to Downing Street. Starmer even lied about the amounts received. One tranche was said to be worth £16,000 but it then emerged that it was actually worth £32,000. Then scandals regarding his family and personal life were alleged – despite Starmer claiming to represent high moral standards.<sup>4</sup> Rosie Duffield MP resigned the Labour whip as a result of the sleaze and corruption.
- He frequently contradicts himself within the same sentence. Examples: *‘I think the lockdown rules should be toughened up; but also that they should be relaxed.’* *‘I don’t think strikes are the answer but I think we should support those that strike.’* *‘I believe in free speech; but I also think we should clamp down on certain types of speech that I don’t agree with.’*<sup>5</sup>
- He is a very shallow, low-IQ, un-charismatic, devoid of emotions, unqualified leader. He is so robotic that some commentators have suggested that he is an MK Ultra<sup>6</sup> Manchurian candidate.<sup>7</sup>

This makes him eminently useful as a puppet for higher powers; which is what he is.

---

<sup>1</sup> A key Elite cabal NGO founded by David Rockefeller in 1973 to form Elite strategies.

<sup>2</sup> The World Economic Forum led by Klaus Schwab that has annual meetings for international government and corporate leaders at Davos. It is a fundamental arm of the global Elite.

<sup>3</sup> The Fabian Society is committed to a slow, stealthy subversion of British institutions to enable a Marxist take-over of Britain.

<sup>4</sup> Yes Boris Johnson was guilty of similar but he never pretended to be moral.

<sup>5</sup> Source: YouTube, The Voice of UK, ‘3 min ago: Isabel Oakeshott just calls out Keir Starmer on live TV’, 25 October 2024.

<sup>6</sup> The CIA mind control programme.

<sup>7</sup> 5<sup>th</sup> columnist in hiding.

In fact, there is evidence that the real power behind the throne was initially Sue Gray, special advisor (SPAD) and Chief of Staff to Starmer. She is a much feared and hated ruthless political operator and strategy developer. Gray has now left this position as a result of power games in Westminster.

### Other ministers

- **The Chancellor.** Rachel Reeves is hardly qualified to be in charge of the exchequer. She had her parliamentary credit card withdrawn and her spending placed under investigation due to potential impropriety. This is in addition to multiple promises made to the country about tax and spending that were immediately overturned when in power. Her repeated claims that she worked as an economist at the Bank of Scotland before entering politics has been exposed to be a lie by Guido Fawkes.<sup>8</sup> She was a mid-level administrative support worker (minor administration, IT matters and small projects), not an economist at all and was only there for three years. Her colleagues at the bank commented on Reeves as being ‘\*\*\*\*\*ing useless’. She also claimed to be an economist at the Bank of England but her jobs there were in three junior positions. Guido also exposed her claim to be a chess champion as false.
- **The Foreign Secretary.** David Lammy is an international embarrassment. He is incompetent and lacking in intellect. His writings and speeches have embarrassed the nation. In a recent speech he demanded reparations for Guyana, his paternal country,<sup>9</sup> because of Britain’s control of the nation during slavery. In fact, at this time Guyana was owned by the Dutch. Britain did not gain control until after slavery had been abolished – by Britain.<sup>10</sup> This is typical of Lammy’s stupidity. This example is but one of a series of errors made by Lammy, some of which have even forced the Foreign Office to make official corrections. Such as regarding Lammy’s Substack writing about Armenia and Azerbaijan which resulted in an American Congressman (Brad Sherman) saying that his remarks were, ‘*a stain on UK foreign policy*’ and an ‘*endorsement of ethnic cleansing*’.
- **Deputy PM and Housing Secretary.** Angela Rayner is an embarrassment to the country. She is another intellectually challenged minister that has made multiple mistakes and is at odds with Starmer. She has also received multiple freebies. Her hypocrisy is seen in the sale of council homes scandal. She announced the termination of council tenants to be able to buy their own house. Yet Rayner had bought her council house in 2007 and sold it for a £48,000 profit.
- **The Education Secretary.** Bridget Phillipson is another unqualified individual. She instituted a review of the free schools approved by the Tory government that have not yet opened. But free schools are a resounding success for children. The free schools programme delivered 650 schools quickly and cheaply; far better than Labour’s ‘Building schools for the future’ programme. The free schools have an outstanding record in academic achievement, being amongst the top schools in the country judged by exam results and university placements. Clearly Phillipson is acting upon a prior political agenda and not the interests of the education of kids. She even called the programme, ‘*a Tory vanity project*’. Phillipson is also presiding over the disastrous tax penalisation of private schools (see later).

---

<sup>8</sup> Guido Fawkes, ‘Rachel Reeves “bank economist” myth busted; Chancellor’s beloved “economist” chronicle exposed as false’

<sup>9</sup> He was born in Archway, London to Guyanese parents. He grew up in Tottenham.

<sup>10</sup> After France invaded the Dutch Republic in 1795 the British took control in 1796. However, the Dutch ceded control in 1814 and in 1831 Demerara-Essequibo and Berbice formally became British Guyana. Abolition of slavery in the British Empire was passed in Parliament in 1807.

- **The Home Secretary.** Yvette Cooper is not stupid like her colleagues. She is very clever – but very dangerous. Despite promising to deal with the illegal immigrant problems, illegal immigration has increased 50% since Labour came to power. She used Treasury reserves to fund asylum hotels (£8m per day). Thousands of complaints surged in to Good Morning Britain TV show after her husband and former politician Ed Balls interviewed her. Clearly she showed no political wisdom here. She announced that misogyny will be treated as extremism, raising questions on how this will be defined and punished. Grievances could be turned into terrorism. Cooper then issued a crackdown on ‘harmful’ beliefs. The idea that the government can define what is acceptable thought is appalling and contrary to the Bill of Rights 1689. In other words Orwellian thought crime.<sup>11</sup> She also confirmed that two-tier policing is here to stay.<sup>12</sup>

The only phrase to sum this government up is, ‘What a shower!’. Within the first three months the whole country ascertained that they were being governed by incompetent and malicious idiots developing big state totalitarianism.

## **The push for world war coupled with the demise of the armed forces**

The first task of a national government is the security of the people. This means a sustained national defence system and secure borders. Both of these are in disarray in Britain. The Pentagon reckoned that Britain could survive a mere two days in a hot war before its resources collapsed.

For many years the armed services have faced cuts while the EU is building up a separate armed forces agency which British soldiers are part of (even wearing EU flashes on their uniforms).

First, a generalised summary of the weakness of the armed services.

### **The army**

The army numbers are at an all-time low so that the whole contingent could not fill Wembley Stadium. The Telegraph states that there are about 83,000 troops<sup>13</sup> without defining this (but some sources say full-time professional troops are actually 20,000). A report to the House of Lords stated that the current size of the British Army is inadequate.

In comparison China’s army is 4 million. Russia’s is around 3.7 million. North Korea has over 7 million; South Korea over 6 million, India and Vietnam over 5 million.<sup>14</sup> Even Taiwan has a much bigger army than Britain, which does not even make the top ten list.

### **The navy**

The British Navy is now a standing joke. There are not enough sailors to man the ships that we have, so many are mothballed. The Admiralty has concentrated upon WOKE and diversity policies at the expense of proper training so that sailors are inefficient.

<sup>11</sup> The Spectator, Brendan O’Neil, ‘Yvette Cooper’s chilling crackdown on harmful beliefs’, 21 August 2024.

<sup>12</sup> The Telegraph, ‘Rory Geoghegan, Yvette Cooper has just confirmed that two tier policing is here to stay’, 12 August 2024.

<sup>13</sup> The Telegraph, Danielle Sheridan, ‘Armed forces not ready to fight a war, admits Defence Secretary’, 24 October 2024.

<sup>14</sup> World Population Review.

Our two new aircraft carriers utilise the F-35 warplanes purchased from America and have constant mechanical problems. Twice the carriers have left dock only to stop from failures within the channel requiring to be towed back. On one occasion HMS Queen Elizabeth had to pull out of NATO exercises due to a broken propeller. 18 months before the sister ship, HMS Prince of Wales, broke down with a similar problem causing it to pull out of US exercises. There is also a shortage of supporting frigates and other vessels.

General Lord Houghton pointed to the shortage of available vessels and noted that the high proportion of naval equipment which was inoperable was 'disturbing'.

In January 2024 two British warships collided off the coast of Bahrain.

The supply and resource ship system is in complete disarray and offline so that warships could not be re-supplied in a real war and would be useless within days (even if they actually worked).

As I write, there is no UK nuclear submarine presence in open waters. They are all being maintained and repaired. In any case the missile systems don't work anyway. Recently one was test fired and it fell into the sea only yards from the submarine. This is the second misfire in eight years, yet this is our main nuclear deterrent. Britain only has four nuclear powered ballistic missile submarines anyway and only a few outdated Trident missiles ready to fire at any one time. Russia has over 4,380 long-range nuclear warheads and 640 on submarines. Russia has also just released data on an entirely new class of submarines that fire laser weapons.

### **The RAF**

The RAF got rid of its Harriers, which would actually be very useful in the types of conflict being experienced today.

The Tornado and Jaguar are completely out of date and ineffective against the opposition.

The Typhoon is a machine build by committee and is not a match for enemy warplanes.

The US F-35 being purchased is extremely expensive, very hard to maintain and breaks down all the time. It also is no match for enemy warplanes like the Sukhoi SU-57 or the latest MiG-35. The Ukraine conflict has already shown that the much lauded F-16 is no match even for a Sukhoi SU-35 which has a longer range, more powerful radar (thus F-16s can be shot out of the sky from many miles away) and better manoeuvrability.

### **Tanks**

The Challenger II is a good tank but is easily taken out by Russian missiles and drone systems. It is no match for the latest Russian tanks. It also costs over £4 million each.

### **Missiles**

The Storm Shadow missile is highly effective but it costs £2.2 million each. However, Russian anti-missile defence systems (e.g. S-400 and S-500) can shoot it down easily.

### **Summary**

The new Defence Secretary (John Healey) has formally stated that Britain is not ready to fight a war. A military source stated that our armed forces were in danger of becoming

obsolete.<sup>15</sup> A general, former head of the army Sir Patrick Sanders, has affirmed that a war would require conscription.<sup>16</sup>

There is no point droning on. The British military is run down, ineffective and badly led by idiots.

### **So why the war drums?**

This means that the current ardent pushes for war with both China and Russia is laughable on the one hand and terrifying on the other.

Multiple defence ministers, war ministers and even Prime Ministers have openly threatened war with Russia and implied war with China. This is incredibly stupid. Russia has hypersonic ICBMs that cannot be shot down and contain enough warheads in a single missile that can destroy the whole of Britain. Why would anyone poke that bear? Only the most stupid, incompetent government would do anything so crazy. Yet both the Tory and Labour governments have done just that.

**Threatening war with Russia, and already being effectively at war in Russia by stealth in Ukraine, is insane and threatens UK security. In addition threatening war with China, is also insane. At the same time our armed forces are in meltdown and Britain could not sustain an armed conflict.**

## **Britain's economic collapse**

And I heard a voice in the midst of the four living creatures saying, 'A quart of wheat for a denarius, and three quarts of barley for a denarius'.  
Rev 6:6<sup>17</sup>

The three fundamental things that affect growth the most are: taxation, regulation of business and government spending on the state (including borrowing). A reduction of these increases GDP. Labour has pledged to increase all of these, guaranteeing a deepening recession; one that the country has effectively been in since 2008. Since school-kids understand this equation why is the government bent on worsening the situation? Could there be an agenda to destroy Britain?

### *£22bn black hole*

It is egregious for Keir Starmer PM to bleat that the Tories have left him with a £22bn black hole<sup>18</sup> requiring raising taxes and cutting important benefits to the elderly, when he fully supported the causes of this economic problem at the time (printing money, Covid measures). Indeed, he pushed for making it worse (harder and longer lockdowns). In fact, the main cause of the black hole is the £22bn lost taxes from fuel duty created by the government's push for EVs (fully supported by Starmer) which equated to £22bn.

---

<sup>15</sup> The Daily Sceptic, Will Jones, 'Armed forces not ready to fight a war, says Defence Secretary', 26 October 2024. The Telegraph, Danielle Sheridan, 'Armed forces not ready to fight a war, admits Defence Secretary', 24 October 2024.

<sup>16</sup> The Telegraph, Danielle Sheridan, 'Civilians must be ready to fight because Britain's military is so small, warn peers', 26 September 2024.

<sup>17</sup> A denarius was a working man's wage for a day. UK minimum wage is about £430 for a 45-hour week. A day's wage is, therefore, about £86. Thus £86 for a quart of bread flour.

<sup>18</sup> Later stated to be £40bn.

### *Pay rises for striking workers*

When in government he made the economic black hole worse by immediately giving striking doctors and railwaymen huge pay rises costing billions. Railway workers already on £60,000 a year received a £10,000 pay rise while striking doctors received a 22% pay rise. Nurses who struggle on £30k (much less when starting), only got 5%. These pay rises cost about half of the claimed black hole deficit: £9bn given away in inflation-busting pay rises. The ASLEF union is one of Starmer's paymasters. [Note that certain overpaid union members get huge pay rises while nurses struggle to pay for food; many are going to foodbanks.] Both the doctors and railwaymen threatened to further strike action afterwards.

### *The cost of Covid interventions supported by Starmer*

The current general economic quagmire was caused by unnecessary and insane government policies: lockdowns, shutting down the economy, stopping businesses from operating, paying people to stay at home and not work, and especially printing money like there is no tomorrow. Added to this was the incredible waste of PPE schemes, test and trace schemes, the vaccine programme and so on. The cost of government interventions was £439bn; and Starmer was all for it.

Even a first year economic student could tell you that this would cause inflation and a catastrophic effect on Britain's economy. Small and medium-sized businesses collapsed, urban shopping centres became ghost towns. The tourist and hospitality industries faced many bankruptcies, etc.

But there is more.

### *The cost of mass immigration*

Britain's population is closer to 80 million than the official 67.5 (2022); this can be ascertained by mobile phone use or grocery deliveries. The population is being swelled by unchecked immigration and illegal immigration. The cost of welfare for asylum seekers / illegal immigration is now £8m per day for hotel costs alone.<sup>19</sup> This means that tax receipts cannot go where they need to go. 1.6 million migrants are unemployed costing taxpayers £8.5 billion.<sup>20</sup> This does not include asylum seekers, which cost the nation £7.9 billion in the last three years<sup>21</sup> on border and visa management when its budget was £320 million (£7.6 billion over budget). The OBR<sup>22</sup> reported that rather than benefiting the nation economically, every low-skilled migrant costs the taxpayer £150,000 by the time they hit pension age (66).<sup>23</sup> This cost rises to £500,000 if they lived to 80 and over a million if they live to 100. They put a greater demand on welfare than what they put into the treasury. By contrast the average British worker boosts public finances by £280,000 by the age of 66.

### *The immediate brain drain*

Furthermore, the planned tax rises of Labour have already resulted in a steady stream of rich people leaving the country – meaning that tax receipts will decrease further. The current brain drain is the third worst in the world after countries with much higher populations. Labour is even talking about a new tax on private homes based on the value

---

<sup>19</sup> BBC News, 'Migrant hotel costs rise to £8m a day', Home Office figures show', 19 September 2023.

<sup>20</sup> Zero Hedge, '1.6 million migrants in UK are unemployed', 2 September 2024. Analysis by Centre for Immigration Control.

<sup>21</sup> Institute for Fiscal Studies, LBC News, 29 August 2024.

<sup>22</sup> Office for Budget Responsibility.

<sup>23</sup> The Telegraph, 'Low-skilled migrants cost taxpayers £150,000 each', 12 September 2024.

(on top of council tax). Rising taxes on second homes in rural areas has resulted in these being sold, causing a net loss for the local economy.

Inflation, despite claims otherwise, is rampant. A check of food prices in the last two years shows an average of 50% inflation. An ordinary bottle of olive oil can now cost £16! Already, many poor people cannot afford sufficient nutritious food.

### *Taxation being considered*

In advance of the October budget this can only be speculation but experts have attested that there is evidence for these items. Some items have already been announced. Multiple commitments were laid out in documents in recent months that amount to increased costs to every member of the public of £2094 over the next four years.<sup>24</sup>

- Increases in fuel duty tax. This will lead to national unrest; especially as the roads are full of potholes.
- VAT on private schools. This will backfire and likely add to government spending. Only the rich will just pay the extra fees that will result. Already squeezed middle class parents will take their kids out and place them in state schools. Each child costs the government £8,000 per year. There is also an on-cost to the Foreign Office, which has to pay the school fees of the children of diplomats. Furthermore, many small private schools will close as they already operate on very tight margins. This will be more costs to the state school system. Legal experts have studied the policy and have concluded that the draft is unlawful and will fail in court. The rules contravene the Human Rights Act by discriminating against children. Also the cut off date of age 19 means that universities will unwittingly be caught up in the VAT regulation. The government has been careless in drafting this policy.
- Raid on pensions. This will lead to people not taking up private pensions but investing in alternate schemes, such as property. It is already leading to many people cashing in their pension plans. This could, therefore, lead to less tax revenues. Doctors have warned Rachel Reeves that they will quit the profession and leave waiting lists to spiral if their pensions are raided in the budget. Potentially Reeves' plan means that £1 of extra income could trigger £22,500 in tax.
- Rise in National Insurance for employers. At a time when the NHS is in collapse. Businesses have already stated that this will lead to increased unemployment, as they will cut staff to cater for the tax rise.
- De-carbonising the power grid. Huge costs / taxes for no purpose.
- Increases to capital gains tax.
- Cuts to benefits; especially sickness benefits.
- Reforms to inheritance tax.

### *Fiscal problems*

Starmer has made the fiscal situation of the nation much worse with unrestrained spending in the first 100 days. He has bribed his support base with huge pay rises to public sector workers, such as the police and junior doctors (22% pay rise). Quasi-public sector<sup>25</sup> workers such as the railway unions have also had large increases in wages. These were unaffordable at a time when Reeves was moaning about a £22bn black hole. It was irresponsible, causing a rise in the national debt. Labour spending commitments already signed up for come to £58 billion of additional spending to achieve policy goals.

---

<sup>24</sup> Official costings signed by HM Treasury. Official government data releases. Labour Party data. Data reported in the Financial Times.

<sup>25</sup> Privately owned but regulated and supported by the government.

The various economic policies and spending being pursued are, in the view of many economists, likely to result in a weaker pound. Starmer will be forced to borrow even more by issuing government bonds (gilts) at fixed interest rates. The Bank of England will print even more money to pay for government policies forcing smaller banks to buy gilts with the printed money. This will create even more inflation. Inflation compromises Sterling's character as a store of value. Inflation will thus weaken the pound and lead to capital flight; investors will take their money elsewhere and sell Sterling and UK assets because the return on UK assets is worth less. Sterling gets weaker and weaker.

The weaker pound will make imports more expensive at a time when we have made ourselves reliant upon importing food and energy. Just a few weeks ago the interconnector to Norway broke down and Britain was minutes away from a complete blackout. Britain has never been so insecure. Yet we have enough land to be self-sufficient in food production and enough resources and ingenuity to be self-sufficient in energy from hydrocarbons and nuclear power. It is monumentally stupid to ignore or avoid these and make ourselves weak; especially when our international competitors (China, India etc.) are building coal-fired power stations every week.

Rising import prices causes more inflation. Inflation causes a drop in the value of UK assets. Investors sell their UK assets. The pound gets weaker and imports cost even more. This sets a cycle of increasing economic crisis. We have seen this before in Brazil, Argentina, Turkey, Lebanon and other nations. In this cycle living standards collapse.

Starmer is playing with fire.

#### *Labour's Net-Zero insanity*

On top of this Ed Milliband's Net-Zero madness is going to punish people in a big way. The costs of his green energy revolution are off the charts and he has already terminated contracts for new North Sea oil drilling. Britain is facing a future of energy poverty coupled with very high energy costs, as well as continual blackouts in winter. His claims that making Britain a 'clean energy superpower' will cut costs, create jobs and secure energy supplies are a flat lie, as many have exposed.<sup>26</sup> Bills are already too high, are going up in October and next Spring will go much higher, to pay for Milliband's Net-Zero stupidity; energy supply will be far less secure, and as the promised green revolution jobs never appeared before, so they will not in the future.

Already investment in Britain is collapsing because of uncertainty about energy provision. Various contracts have been withdrawn. In Germany the Green agenda is destroying national industries. Even VW is closing a main plant in one large city leaving no employment for the locals, who are leaving in droves.

#### *The cost of supporting Ukraine*

In acts of sheer insanity Britain has been wasting billions in various aspects of the Russo-Ukrainian War – a conflict that has nothing to do with our security. It has given over £7.5 billion in military aid and £5 billion in financial support. It has given millions in terms of military equipment such as depleted uranium shells, Challenger II tanks (£4.2 million each) and storm-shadow missiles (£2 million each). It has deployed the SAS and other military personnel in disguise as mercenaries.

---

<sup>26</sup> The Daily Sceptic, David Turver, 'The graphs that prove Labour is lying that renewable energy will cut bills', 2 September 2024.

Britain has also guaranteed World Bank loans to Ukraine and British businesses have purchased billions of Ukraine bonds or made investments there but Ukraine is about to go bust.<sup>27</sup>

On top of this Starmer has promised to give Ukraine £3bn every year for ‘*as long as it takes*’.

It also stupidly sanctioned Russia, which had the net effect of damaging Britain’s economy and energy security<sup>28</sup> while improving the economy of Russia.<sup>29</sup>

### *National debt*

Due to increased borrowing by Labour in the first two months in power, the OBR warned that British debt had now skyrocketed to 100% of GDP for the first time since 1960. In mere weeks Starmer had severely damaged the economy.

### *Bank of England issues*

But the real problem lies in the Bank of England.<sup>30</sup> The government is required to bail out the bank if serious problems develop (i.e. bank losses sustained on its balance sheet assets).<sup>31</sup> A recent speech by Victoria Saporta (Executive Director, Markets) revealed that the bank is anxious about Britain’s financial system collapsing and it is trying to avert this collapse. But its plan is the worst possible –loosening its credit standards and accepting junk quality collateral in exchange for cash. A clear sign that the entire system came close to collapse. [For the second time in two years. On 27 September 2022, after the Kwasi Kwarteng / Liz Truss budget, the system had come ‘*within hours*’ of collapsing.]

You cannot have quantitative easing for year after year and expect no problems. The chicken will come home to roost. Britain’s public debt continues to outpace its GDP growth. Budget deficits will be covered by the Bank of England’s monetary inflation, which is leading to stagflation. Scores of billions are going to be necessary to shore up the bank costing £2,240 for every man, woman and child in the country; or £10,000 for every employed person. By 2033 the bank has estimated that it will require the treasury to transfer £150 billion to cover expected losses on the bank’s quantitative easing programme. The effect of this is unknown but it will mean many vital services will be shut down.

### *Social crisis*

But the social situation is already dire.

- Trussell Trust informs us that in the last five years the number of those needing emergency food aid doubled to 3 million. In the world’s fifth largest economy, 3 million people at least are in food poverty.
- One in five households struggle to pay their water bills.

<sup>27</sup> Its economy was in trouble before the war but since then has collapsed by another 25% and tax receipts are dwindling. Half of the population has already fled the country. Ukraine’s 2024 budget deficit is about to rise to \$44 billion. Ukraine cannot service her mounting foreign debts. The Elite are trying to stop it defaulting on its debts with a restructuring programme. On 24 July 2024 Fitch downgraded Ukraine’s credit rating to C reflecting extreme credit risk. Ukraine could go bankrupt as early as 2025. RT, ‘World Bank issues Ukraine bankruptcy warning’, 1 April 2024. The Economist, ‘Ukraine has a month to avoid default’, 30 June 2024.

<sup>28</sup> While direct imports of Russian LNG were low, the sanctions increased the costs of importing gas from other countries.

<sup>29</sup> Russia diverted exports to other friendly countries.

<sup>30</sup> Thanks to data from Alex Krainer’s TrendCompass.

<sup>31</sup> If the price of gilts (government bonds) on the bank’s balance sheet collapses, British taxpayers must cover those losses.

- Many cannot pay their energy bills. 48% of Britons said that they would have to reduce heat this winter. Electricity bills are five times higher than the average EU country and will soon increase dramatically. Why? [Answer Net-Zero crazy policies.]
- In some towns (e.g. Kirkaldy) 70% of children are in child poverty.
- The CEO of a retailer complained that his stores were losing customers to food banks or hunger.

Britain is facing a collapse in its economy of unprecedented proportions; a depression is all but certain. It is assured that a long period of austerity will follow. Nothing any new government can do could now change the inevitable collapse that is coming, apart from creating a world war.

*Summary: facts about the UK economic collapse<sup>32</sup>*

- In 2007 Britain had a slightly bigger GDP per capita than the US. Now it only has 60% (GDP per capita \$46,000).
- The UK is poorer than Mississippi, the poorest state in the US (GDP per capita \$48,000).
- Poland could overtake UK GDP within a decade.
- Adjusted for inflation, there has been no economic growth since 2007.
- The British tax code is the longest in the world.
- Core government expenditure<sup>33</sup> is 12% of GDP (20% if we include the NHS) but current government expenditure is 45% of GDP.
- We spend £25 billion more on the NHS than comparable countries for a worse outcome. Extra spending in the last 20 years has gone on administrators.
- Social welfare accounts for half of government expenditure. 54% of people receive more in benefits than they pay in taxes.
- A third of the workforce is in the civil service. In 2022 the entire civil service took more than 2,000 years off sick.
- The future cost of pensions is £2,6 trillion. No funds have been set aside for this.
- The third largest expenditure is servicing debt, 12% of government expenditure (£128 billion in 2023).
- Britons are earning a similar amount now as they did in 2008.
- The FTSE stock index has only grown about 25% since the beginning of the century. The US S&P 500 index has grown over 250%.
- Investment is the lowest amongst the G7 economies
- In 2023 1.2 million immigrants came to this country but 500,000 left. The immigrants tend to be low-skilled or unemployed people but the people leaving are highly-skilled wealthy people ('brain-drain'). This has serious economic repercussions regarding productivity.
- Manufacturing has evaporated while the finance services industry dominates the economy (81% of GDP is services). But this industry does business with the rest of the world because there are too few investment opportunities in Britain. Therefore, Britons do not benefit from the overblown financial services industry.
- Britain has had a trade deficit every year since 1998 (except for 2020).

## **CAUSES**

- Government debt soared after bailing out the banks during the 2008 banking crisis.

---

<sup>32</sup> YouTube, Business Basics, 'UK is going bankrupt'.

<sup>33</sup> Police, judicial, prisons, defence diplomacy, highways, education, sewage, sanitation, environment.

- Massive printing of money by the Bank of England.
- The massive cost of Covid interventions, especially lockdowns, PPE, test and trace, and furlough.
- The collapse of small and medium-sized business due to Covid policies.
- Massive government waste on vanity projects such as DEI, ESG, Net-Zero, HS2 etc.
- The cost of illegal immigration and asylum seekers.

### **EFFECTS**

- The NHS is in complete meltdown. There is a current waiting list backlog of 7.7 million people.
- Inflation is very high in reality.
- People cannot afford good quality food.
- Energy prices are extremely high. The worst in the world.
- House building is way behind need; house prices are unaffordable.
- 147 state school buildings are at risk of collapse.

### *Global crisis*

The whole world is facing a global economic crisis as I have explained many times. This is now coming to a head. Numerous small banks are already on the verge of collapse and nothing can save them. The 'work from home' situation caused by stupid Covid furlough schemes never recovered and offices are empty. Many office blocks cannot be converted to residential and so office tower blocks are being sold at a tenth or less of their normal prices. A tower block in the middle of Manhattan recently sold for \$8m when it was worth nearly \$200m three years ago. This is going to cause massive problems for banks due to the loans they hold on office property. Even the big banks are going to collapse. Warren Buffet has just sold his holdings in Bank of America for cash. He knows what is coming.

This, and many other facets of the economy (such as national debt, the coming collapse of the dollar, interest rates cuts and the inflation it will cause etc.) means that a crash and depression is coming the like of which has never been experienced before. If banks collapse they will take all of your money.

### *The real problem*

The real cause of the economic problems is the banking cartel, which cares nothing about the poor: '*a systemic, wilful, concerted, and brutal economic war*'<sup>34</sup> is being waged against the poor and vulnerable. 2024-2025 is looking to be the worst years in living memory.

**Wicked and stupid politicians have been wasting the nation's wealth and taxing people to the hilt to pay for nonsensical whimsies. They have targeted small businesses for eradication, de-industrialised the nation and brought Britain to its knees. The banking cartel and Big Pharma have dominated governmental policies to suit their own agendas - which includes the destruction of Britain as a global influence.**

In my opinion all this current strife is not divine judgment yet but the result of the incompetence and stupidity of politicians. The divine law that 'what you sow, so shall you reap' is being worked out in front of us. But divine retribution is about to hit Britain

---

<sup>34</sup> Phillip Alston, UN Special Rapporteur on extreme poverty and human rights.

dramatically. Complete economic meltdown will be part of God's judgment on the nation for its appalling sins.

### *An alternative view*

The policies being pursued by Labour are so stupid and incompetent that one has to wonder whether this is actually a deliberate plan to destroy the country. We know that there is such a plan by the Elite that has been long in the making.

The Green revolution and climate alarmism is partly to de-industrialise nations; just look at this unfolding in Germany right now. The German behemoth industrial base, the strongest in Europe, is collapsing before our eyes. Huge manufacturing corporations are facing bankruptcy. There is insufficient energy provision to face a cold winter. Britain is also being de-industrialised; we no longer even have our own steel industry.

Many believe that the controllers of Starmer – the banking Elite in the City – have issued orders to finally collapse Britain through economic stupidity – doing the opposite of all the things one should do to boost growth and stability. For decades the Elite have slowly destroyed British culture, Christian religion, essential moral standards, education, law and order, art and architecture, history, etc. Now the coup de grace is to crash the economy to lead to a new order planned by them.

### **A contrast**

In contrast to the economic and cultural collapse of the G7 nations, the BRICS countries, led and strategised by Putin, are growing fast. Sanctions against Russia have contributed to the downfall of the West but an upsurge of everyone else, including Russia. BRICS now controls over half of the world's economic powers and GDP. Yet many more nations are clamouring to join BRICS as soon as possible. The trading group now overpowers the G7, making it redundant. Putin is even mollifying the tensions between China and India.

Within BRICS Russia and China are the military superpowers but Turkey, India and Iran also have very powerful, well supplied armed forces. All of them outshine Britain.

BRICS already has an alternative to the SWIFT payment system and when it establishes its own global currency it will dominate the world. BRICS nations are already de-dollarising (trading oil in local currencies and selling US bonds).

Britain is being eradicated in world influence.

## **The eradication of free speech and general freedom in Britain**

Those who handle the law did not know Me; the rulers also transgressed against Me. Jer 2:8

I will break in pieces governors and rulers. Jer 51:23

Their drink is rebellion, they commit harlotry continually. Her rulers dearly love dishonour. Hos 4:18

76 years ago the Britons that read George Orwell's *1984* could not imagine living in such a dystopian world of GroupThink, lies, Gestapo police, and totalitarian government. Indeed,

they had just fought a war to combat such authoritarianism. But in less than a century much of this despotic rule is now a settled fact in Britain.

Britons have suffered martial law and being confined to house arrest for months on end over two years. Facemasks have been demanded, despite being useless and medically dangerous. Test and trace measures have been enacted. Overseas travel has been banned. Pointless social distancing has been imposed. Now we are seeing widespread jail terms for expressing an opinion on social media, or for criticising the government, or for anti-establishment posts or for watching a demonstration, or for shouting at a police horse, or for criticising the police. People have been arrested for waving a Union Jack flag or a St George's flag. People have been arrested for praying silently in the street – a literal thought crime.

In two-tier policing and judgment anti-establishment protestors have been jailed for months and years. To make room for these in crowded prisons, real criminals (including violent rapists, kidnappers of children and child molesters) have been set free early; some having only served 20% of their sentence. Meanwhile Muslim protestors waving swords, knives and baseball bats threatening British people, and beating up individuals, have largely been ignored by the police. Two Muslims that broke a policewoman's nose are still at large on bail. Hundreds of Muslims waving Palestinian and Afghani flags and causing disruption and breaching the peace with threatening behaviour were ignored by the police. Muslims were heard to shout, '*This is our country now*'. Some rioting Muslim gangs even caused the police to run away. A Labour MP that publicly incited followers to cut people's throats was only arrested after massive outrage and has now been released on bail.

On the other hand, people that criticise Israel are being jailed. It is a crime to speak out in denial of, or even question, the Holocaust and any public criticism of Zionism or the actions of the State of Israel will lead to arrest.

A chilling example of two-tier justice is Sarah Wilkinson, a 61-year old female press journalist that sought to give accurate reportage of the genocide of the Palestinian people in Gaza publishing firsthand reports and footage.<sup>35</sup> Her home was brutally invaded by 12 police officers, some in riot gear and balaclavas, at 7am with 16 police cars and vans blocking the street. She was manhandled and handcuffed in her pyjamas – the handcuffs were so tight that they cut off her circulation and caused medical damage. Her son was manhandled. Her house was completely ransacked. Her mother's ashes were scattered on the floor. All her electric communication devices were removed. Police officers stole money that they found and other valuable items. They removed her passport but did not itemise it. She was arrested, not allowed to dress, not allowed to eat or take her medication (she has Crohn's disease so that could have hospitalised her). She was questioned for hours as if she was a terrorist (the arrest was based on the terrorism laws) and only released when she demanded a solicitor (initially illegally refused) at 11pm. She cannot fulfil her bail conditions because she must show her passport but also cannot get to the station, living in a distant rural village (she was told to take four buses and sleep in a tent overnight in the town). This could result in five years in prison. She is not allowed to use the telephone or any digital communication devices and so cannot order food online or call an ambulance if her Crohn's flairs up. This ruthless behaviour, now sadly common, is to prevent free speech reporting of facts the government does not want you to know. Two other innocent alternative news commentators have been arrested under section 12 of the Terrorism Act.

---

<sup>35</sup> See her testimony on YouTube, Crispin Flintoff Show, 'UK journalist under house arrest on terrorism charges', 2 September 2024.

Another person posted a comment stating that they liked the Lotus-Eaters online podcast. They were arrested for this.

This complete breakdown of law and order, and the biased harsh treatment of innocent White British activists and demonstrators, prove that the state of social affairs in Britain is dire indeed. Common Law, the British Constitution and the rule of decency have been trampled underfoot by the government and its enforcers.

Meanwhile a concerted attack on the Christian principles that undergird British society, established for 2000 years and ratified in laws, have been eradicated after decades of attacks by stealth. In an Intersectional nightmare, White British Christians are the target of derision, slander, lies and attacks while multiple minorities and schismatic groups are elevated and preferred.

The most persecuted people in modern Britain today are White, middle-aged or elderly, Right-wing, 'gammons' one the one hand and young, White, conservative males on the other. The suicide rate of the latter is now at unprecedented levels.

**Free speech and freedom of expression have been outlawed by the government. This is a crime against the British Constitution, which secures: free speech, freedom of expression, freedom of worship, freedom of assembly and the right to roam.**

The continued destruction of freedom by authoritarian measures is contrary to God's law and will result in divine judgment.

## **The attack on the elderly**

Labour has decided to raid old-age pensioners in order to finance its claimed £22bn black hole in the budget. Here is a summary of expected measures.

### **Removal of the winter fuel allowance**

When it was in opposition Labour criticised the Tories for even considering this option and claimed that it would cost lives. Now they adopt it within hours of being in government. Even significant numbers of their own back-benchers are opposed to this. 50 Labour MPs abstained in the Commons vote but only one Labour MP voted against it. Even the Labour conference voted against this policy – yet Starmer doubled down.

Yet many Labour Cabinet ministers have themselves received costs to subsidise their energy bills to the tune of thousands; including Chancellor Rachel Reeves.

The hypocrisy is beyond bounds. Ministers receive £4,000 or more towards their energy bills for a second home yet they remove £300 from the poorest, most vulnerable in society at a time when the bills are going up.<sup>36</sup>

### **Other issues**

It has been suggested that bus passes may be removed from pensioners. Yet, for many, this is the only thing that enables them any sort of mobility. They rely on this subsidy.

---

<sup>36</sup> I know that some pensioners are wealthy but the vast majority are poor and cannot afford their energy bills. More than 3,000 die from the cold every year.

Another suggestion is the cancellation of the single-occupants council tax discount. Again, this would cripple the finances of many single pensioners.

The Tories abolished the Lifetime Allowance in 2023. In opposition, Starmer stated that the Lifetime Allowance<sup>37</sup> would be reinstated by a Labour government; this is now not the case.

### Compare

Whilst scrimping on the elderly, Starmer is continuing and increasing the amount of aid given to Ukraine to kill people. Britain has given tens of billions already in finance, loan guarantees, munitions, missiles, tanks, other resources, special advisors (mercenaries and trainers), plus training thousands of Ukraine soldiers in Britain to the detriment of our own forces and promises of £3bn a year. Despite a £22bn black hole in finances, Starmer is happy to throw billions towards a war that has nothing to do with us. A lot of money for killing Russians is OK; a pitiful sum to save the elderly from the cold is cancelled.

**The cruelty of this Labour government, supposed to be Socialist on the side of the poor and needy, is shocking.**

## The complete collapse of the criminal justice system

How long will you judge unjustly, and show partiality to the wicked? Selah  
Defend the poor and fatherless; do justice to the afflicted and needy.  
Deliver the poor and needy; free *them* from the hand of the wicked. ...  
They walk about in darkness; all the foundations of the earth are  
unstable. Ps 82:2-5

Do you judge uprightly, you sons of men? No, in heart you work  
wickedness; you weigh out the violence of your hands in the earth. Ps  
58:1-2

You shall not pervert the judgment of your poor in his dispute. Keep  
yourself far from a false matter; do not kill the innocent and righteous.  
For I will not justify the wicked. Exod 23:6-7

You shall do no injustice in judgment. You shall not be partial to the poor,  
nor honour the person of the mighty. In righteousness you shall judge  
your neighbour. Lev 19:15

Under the Tories the criminal justice system was said to be broken.<sup>38</sup> At the end of 2022 there was a backlog of 61,737 cases. Victims of crime were being forced to wait 525 days for their cases to be heard even in 2019 before Covid. Probation service failures led to people being murdered, such as Zara Aleena (35), which caused Yvette Cooper (Shadow Home Sec.) to vehemently attack the Tories.

---

<sup>37</sup> The total amount saved in a pension before it was heavily taxed. In 2022 it was £1.073m

<sup>38</sup> The New Statesman, 'The criminal justice system is broken ...', 15 February 2023.

For years, victims of crime had been let down by the judiciary; light sentences (if any) were handed out to criminals. Rapists got six months or less but Alex Benfield was sentenced to five years in prison for hurty words in a few emails. Tommy Robinson became the only journalist to go to jail for contempt of court for truthfully reporting on the trial of Muslim rape gang members outside the court after the trial had finalised.

Multiple people were already saying that the criminal justice system was not fit for purpose before Labour came to power.

But then things got much worse.

Jurist news stated that the system was on the ‘*precipice of failure*’.<sup>39</sup> The Spectator affirmed that, ‘*The criminal justice system is on the brink of collapse*’.<sup>40</sup> The police watchdog stated, ‘*the entire criminal justice system is in disarray*’.<sup>41</sup> Andy Cooke, HM Chief Inspector of Constabulary, said that it was dysfunctional.

The prisons were virtually full. Necessary new prisons had not been built and existing prisons were riddled with infrastructure problems. Staff were receiving pay less than the minimum wage limit. Even the court structures were falling apart; some court cases were postponed due to flooding. Barristers were beginning to strike due to overlong hours. ‘*The whole concept of the rule of law has been left on its knees*’.<sup>42</sup>

When Starmer decided to mercilessly and insanely attack decent people for critical posts on social media, or castigating the police, or protesting about murdered children, he, with Yvette Cooper, quickly arranged for violent criminals to be released from prison even if they had only served 20% of their time so that innocent people could be incarcerated for up to three years. Over 5,000 will be released during September / October but the probation service is understaffed and underfunded. Multiple professionals warned that this means that people would be free to roam the streets who should be in prison. Not only is that a risk to the public but it is an affront to the victims of their crimes. The prison officers union has threatened legal action if the overcrowding worsens since they will be at risk of rioting.

Despite castigating the previous government, Labour has offered no plans to alleviate the crisis but has worsened it by jailing hundreds of innocent people. Shabana Mahmood (Lord Chancellor and Sec. Of State for Justice) was one harsh critic of the Tories on this but failed to outline any steps that Labour will take to fix the problem. The Criminal Bar Association expects the case backlog to exceed 72,500 by the end of June 2024.

The HM Inspector of Constabulary also warned about the ‘perception’ of two-tier policing. An example of biased prosecution under Starmer is:

Leniency	Intolerance
A famous BBC presenter, who pleaded guilty to three counts of making indecent images of children, was given a suspended sentence.	In August 2024 a man was jailed for re-posting three offensive images about Muslims on Facebook even though he deleted them shortly afterwards and apologised.

<sup>39</sup> Jurist News, ‘A system on the precipice of failure’, 8 July 2024.

<sup>40</sup> The Spectator, ‘The criminal justice system is on the brink of collapse’, 16 May 2024.

<sup>41</sup> The Sunday Telegraph, No: 3,207, 1 September 2024.

<sup>42</sup> Jurist News, op. cit.

For years there have been complaints of a failure in the criminal justice system. Whether this is the multiple miscarriages of justice;<sup>43</sup> the light sentences given to criminals, including violent criminals; the harsh sentences given to innocent political activists;<sup>44</sup> the favouring of criminals seeking compensation;<sup>45</sup> the lack of a jury trial (which is a citizen's right under the Constitution); the lack of legal aid and so on.

In short, justice has become a criminal's charter; but woe betides you if you are a political dissenter or an anti-establishment alternative commentator.

The new Home Secretary, Yvette Cooper is already being hailed as the most dangerous woman in British politics.<sup>46</sup> Despite being elected by the merest sliver of a majority, she quickly engaged in a number of disastrous policies. Isabel Oakeshott affirmed that she was, '*the most disastrous, misguided and expensive Home Secretary*'.<sup>47</sup> She dismantled the only barrier to Channel boat crossings; is about to grant amnesty to thousands of illegal immigrants; agreed to release 5,500 prisoners early, fast-tracked the jailing of political commentators and mercilessly cracked down on free speech like any good tyrant. She has also revitalised the police's 'non-crime hate incident' reporting (criminal records) despite a court in 2021 (Henry Miller case) affirming that they are unlawful and, '*a move toward a police state*'. Cooper wants these lawful 'hurty word' incidents prosecuted. And this was only within the first few weeks in power.

She has worsened the bitter divisions in society. In fact her actions appear to be racist. She has let off Asian Muslims that committed multiple criminal actions (including GBH, threatening behaviour, rioting, etc.) but jailed hundreds of White, Right-wing activists for trivial perceived offences. To solve the backlog in asylum cases she made it easier for them to stay. Of 63,053 illegal immigrants earmarked for deportation 70% may now be allowed to remain and get welfare after she scrapped a law automatically banning Channel migrants. The cost of this is £18bn (yet Starmer stopped winter fuel payments for the old to save money). Now she wants to crack down on 'hateful beliefs'. Chief among those targeted will be Right-wing idealists and Christians.

**There is no justice in Britain anymore. True victims of crime are undermined and demeaned while perpetrators of crime go unpunished or suffer light sentences. Innocent people are sentenced with jail for lawful but provocative speech.**

God hates injustice and demands that rulers judge fairly and impartially. His judgment will rain down on those who pervert justice and rule despotically.

## The release of prisoners policy

I have already explained that Labour is releasing prisoners in order to lock up innocent political dissenters. This is serious enough but the facts around this release are truly shocking; this policy will endanger civilians and lead to deaths.

---

<sup>43</sup> E.g. the Birmingham Six, the Guildford Four, or Barry George etc.

<sup>44</sup> Such as jail for providing political stickers.

<sup>45</sup> Such as the burglar who fell through a conservatory roof of a house he was burgling and received compensation for falling.

<sup>46</sup> Yahoo News, 'Yvette Cooper is now the most dangerous woman in Britain', 30 August 2024.

<sup>47</sup> Ibid.

Cooper claims that only minor offenders will be released but this is a lie. She is so incompetent that violent criminals and even murderers are already scheduled to be released in the first tranche of over 5,000 by October with more to come.

The technical issue is that only the last offence is considered in the decision to release an offender. But many have more than one criminal offence. So someone is convicted of murder plus some lesser crime is released based on the lesser crime. Even the Ministry of Justice has now admitted that some serious offenders will be released.

The prison service has sounded the alarm that violent criminals are being set free and they will re-offend. Past history shows that such offenders commit serious crimes after release from jail, including murder. Jordan McSweeney murdered someone after being released on licence for example. The Inspector of Prisons had already warned that early release programmes undermined 'safe risk management' and particularly risks to children. Prisoners have already been released without having a home to go to. What do the authorities think will happen? The National Association of Probation officers released a statement saying that the plans pose a severe risk to the public; there will be a spike in crime. In a normal year about 300 offenders commit serious crimes while on probation; usually violence or sexual crimes. 5,500 being released in a few weeks will lead to a huge spike in violent crime. The public was warned to be wary.

Update: as soon as the first batch of offenders was released, some immediately committed crimes. One committed rape within 24-hours. Administrative errors also meant that some very dangerous criminals were wrongly set free. The public were put at risk in order to free up prison places to jail people with wrong opinions. Dozens that were set free were back in jail within days.

But the situation is even worse.

Various procedures are set in place when releasing offenders normally. This includes a three-month lead-up period, setting up rehabilitation counselling, establishing a halfway house, then a home, probation services and so on. This new release system has ignored most of these services. Furthermore, there is a shortage of probation officers to deal with the sudden influx. Prisoners are going to be released with nothing to mollify the shock of a change of environment.

**Setting convicted criminals free before their sentence is ended in order to lock up political dissenters shows that Labour cares nothing about public safety.**

## **The Chagos Islands scandal**

These islands have been part of Britain since 1813. Contention about their ownership has been ongoing for some years. Starmer, single-handedly, officially gave the islands to Mauritius, an ally of China, at a time when politicians are talking about war with China. Diego Garcia will remain as a licensed military base for the US and UK (even though there is a greater case to repatriate Diego Garcians back to their homeland).

Whatever the right status of the islands the point is that Starmer acted in an authoritarian manner. There was no discussion in Parliament. There was no official debate. There was no consultation of the people. This was no manifesto pledge. Even worse, the various costs in this matter are going to be forced upon the taxpayer when there is a supposed black hole of £22bn already.

Worse still the Chagos Islanders wanted to remain part of British Overseas Territories. Britain had originally freed the slaves on the islands placed there when under French rule. They are now under the sphere of influence of China. Even worse, Mauritius never owned the islands at all; it has no claim on their sovereignty. Apparently Starmer made this decision after a period of only nine days consideration with no representation and no wisdom.

As a result of this recklessness Argentina has already started agitating for a reclamation of the Falkland Isles.

Starmer has again proved that he cannot be trusted to act democratically. He is a law unto himself. He is a dangerous man.

**Making arbitrary decisions on British territory that has stood for over 100 years is an act of tyranny.**

## **The continuing disaster of illegal immigration**

The current cost of housing illegal immigrants is over £8 million per day. This is unsustainable but Starmer is encouraging more immigration by small boats in the channel, escorted by the French navy and passed to the RNLI to ensure safe passage. Despite Starmer's promises of stopping illegal immigration, in the first 100 days of power it has increased by 50%. But future economic growth is predicted to be less than 1% per annum, which is less than the cost of immigration coming in.

On arrival immigrants, almost all fighting-age young males with designer clothes and smartphones (which they throw into the sea with their passports to avoid being identified), are coached to staging points and then most are placed in 4-5 star hotels. Brighton seafront has 15 hotels devoted to immigrants alone. The NHS provides immigrants with their own dedicated patient transport service to keep them away from British patients. Families are offered their own refurbished housing. One Brighton immigrant family was offered a large four-bedroom house even though there were only two parents and one child. They refused it as it was not big enough; so they went back to their 5-star hotel.

The costs of providing for immigrants are astronomical. There is no economic benefit to large-scale immigration as I have explained before. Each immigrant represents an on-cost of £500,000 if they live past 70. While in hotels they have three square meals a day, free health care, other benefits, wide-screen televisions and £45 spending money a week and are given free Smartphones upon arrival. In permanent accommodation (which they have preference for over British citizens on the waiting list) they receive multiple benefits, health care, and living allowances.

The cost of this is a major contributor to government borrowing that is unsustainable. It is a major factor in causing the inevitable economic crash that is coming.

In addition, crime statistics are clearly showing that areas where there are collections of immigrants have crime rates through the roof. Stabbing and violent crime is very high, especially rapes. Over 50% of prison populations consist of immigrants.

Regarding Progressives that insist it is law to house asylum seekers we need to understand this. Most of the illegal immigrants are not asylum seekers fleeing persecution but are economic migrants. There is no legal right for the UK to accept them. Secondly,

international law states that asylum seekers fleeing a country must seek asylum in the first democratic nation they get to. Since all illegal immigrants to Britain have come from France (and previously other EU nations) then they have come illegally. International law states that they should be deported back to the first democratic country they got into.

No one begrudges legal immigration of good qualified people. The NHS runs on the quality of wonderful people that entered lawfully and pay their taxes. Indeed, these people are discriminated against facing high costs for rent in the south and high taxation. Many work 12-hour shifts six days a week. They then see illegal immigrants being given everything on a plate and not even working.

The multiplication of immigrants in communities destroys the historic British culture in that place. Some small villages of a few hundred people have had an allocation of thousands of immigrants in a special facility. With no additional infrastructure only chaos will result from such a tactic. Even large towns are now overwhelmed by immigrant culture, especially Islamic culture. Birmingham is now majority Muslim control where Christmas celebrations are outlawed.

The recent batch of lawyers being qualified represented 90% Muslims. In ten years or so these will be the judges in courts. It is the official religion of such people that women represent only half of the value of a man. How will that ethical value work out for women's equality?

As well as developing a massive economic problem, mass immigration, especially of illegal migrants, also poses serious threats to established British culture. This is one reason why older people complain that Britain isn't Britain anymore.

Starmer is making this problem worse.

**Starmer, following his globalist mentors like Blair, favours immigrants against White British people and this leads to two-tier policing and policies. Starmer has completely abandoned his traditional working class support base; indeed, he is vehemently opposed to them.**

## **Climate alarmism policies that are destroying nations and threatening planetary extinction**

There is a long list of absolutely stupid policies based on multiple alarmist lies; such as that CO<sub>2</sub> is dangerous and evil (it sustains planetary life through feeding plants); that CO<sub>2</sub> drives global temperatures (not true; rises in CO<sub>2</sub> follow rises in global temperatures); that humans cause global warming (not true; the sun, cloud cover and the oceans control global temperature).

The stupid policies are causing huge societal problems such as energy poverty, economic collapse, high taxes for poor people, huge profits for the rich, de-industrialisation, social control mechanisms and so on. But, serious as these things are, they are nothing compared to the slow destruction of the entire planet.

We will take just one strategy: chemtrails.

Chemtrails are more properly termed: stratospheric aerosol injection, geo-engineering, weather manipulation, or solar radiation management. The latter term is the one used by the British Government in its official website.<sup>48</sup> Even the Met Office has issued formal statements in an interview explaining how solar radiation management works to reflect the light from the sun back into space by thickening cloud cover.

This is the explanation for why UK weather over the last 18 months has been so dire: there was no summer; there was the wettest spring on record as well as the wettest winter. The damage done to farming resulted in the worst farming situation for hundreds of years. Farmers were not even able to plant winter barley, while spring and summer planting was abnormal. What planting was possible led to poor growth. Harvests are at an all-time low.

We could write an article on the danger that this is going to cause at a time when food chains are collapsing, food inflation is higher than ever, and government policies have reduced farming in many areas. But this is still not the problem in view here.

The most serious issues involve the collapse of insect populations and the radical changes to the hydrological cycle.

### **Insect collapse**

Most gardeners have noticed that this year there have hardly been any insects around, especially bees. Plants, like hebes, that should have been swarming with bees and hoverflies, have been devoid of these insects.

The damage to insects is beyond belief.

- Tree insect populations are collapsing.
- Bee colonies are collapsing.
- Insect populations in general are collapsing.

Bear in mind that insects, especially bees, butterflies, moths and hoverflies, are pollinators. If these die out there is no pollination and all plants requiring pollination will die. Humanity's extinction will swiftly follow.

The destruction of insects may have several causes (e.g. herbicides, insecticides, GMO plants, 5G) but the main global cause is chemtrails, which are raining down toxins literally everywhere. Even high mountain pools (which should be pure rainwater) reveal high levels of chemical toxins.

### **Poisoned earth; damaged plants, poisoned livestock**

Gardeners are noticing that many plants are being burned and are dying but with no noticeable cause. Plants that normally flowered well have not flowered for two years. Normal annual growth of plants that are surviving is much less than it should be.

The causes of this are that the Earth is being drenched in toxic chemicals and compounds falling from the sky in the incessant rain.

The chemtrails pour about 40 different toxins into the sky that form clouds but eventually fall to the earth. These included aluminium oxide, barium, graphene and dozens more

---

<sup>48</sup> UK Government, Dept. for Business, Energy, & Industrial Strategy, 'The UK Government's view on greenhouse gas removal technologies and solar radiation management'.

poisonous agents. The more chemtrails, the more the ground is poisoned. In my area chemtrails appear every few days (coasts are especially targeted for weather manipulation).

Chemtrails have been in operation for decades going back 70 years but have been widespread over Britain in recent decades and in the last few years this operation has significantly accelerated. So the toxic effect on the soil has worsened dramatically in the last few years.

Not only are plants and crops poisoned but the grass that feeds livestock is also toxic. This has led to unusual medical damage in animals, such as strange blood formations and foreign bodies (graphene) in blood.

People that eat poisoned meat and poisoned vegetables and fruit are going to be medically compromised – mainly by cancer. Even those only eating organic products will be poisoned because these too will be affected by agents raining down from the sky. Even greenhouse crops will be toxic as a result of the poisoned water and compost being applied to them.

### **Vaccination from above**

Various nations have already admitted that they are vaccinating people and animals through chemtrails. People breathe in the toxic vaccines in the air. Bill Gates is behind one set of strategies in this matter. It seems that this began during the Covid crisis when certain nations (e.g. Spain and Australia) started vaccinating via aerosols in the air. However, governments have been spreading toxic particles through aerosols from aeroplanes and other vectors for decades. This includes the British government, as I have explained before. UK aerosol military experiments using pathogens were occurring in the 1950s. One experiment using weather manipulation led to the tragedy of the Lynmouth flood which killed people.

### **The hydrosphere<sup>49</sup>**

For the first time in recorded history, the hydrological cycle has been damaged and is erratic. This is due to the constant interference by government strategies using chemtrails.

In some countries this has led to water shortages and drought. If the hydrological cycle is seriously damaged it could destroy all human life on Earth. It can also lead to flash floods. Note the serious flooding recently in desert places in the Gulf States following chemtrail activity.

### **Starmer**

What has this got to do with Starmer? Well he is all for these dangerous policies; even more committed than the Tories were. He is pushing harder (via mad Ed Milliband) to deliver Net-Zero strategies which are behind this life-threatening catastrophe.

Milliband's policies are accelerating the Net-Zero agenda pushing many aspects of insane terrestrial damage.<sup>50</sup>

---

<sup>49</sup> The mass of water on, under and above the Earth's surface.

<sup>50</sup> Turbines are already an ecological disaster; they kill birds, bats, insects and cetaceans. Solar farms occupy huge swathes of vital farmland. New licences have been granted for onshore and offshore turbines to do more damage to nature. Biomass pellets necessitate chopping down ancient trees. Biofuels use up vital grains. Farmland is being taken away from producing crops. Unlimited illegal immigration is creating a higher demand for food and power.

Unless there is a reversal of the insane Net-Zero policies, and especially a termination of the chemtrail programmes, the Earth is doomed within a few years. The climate alarmism strategies are literally killing the world.

## **Conclusion**

The worrying fact about these issues is that they have been enacted by a government only a few weeks into its term of office. What on Earth will transpire in five years?

Already this government has shown a deep disdain for God's laws and even for the British Constitution. It is setting up a platform for totalitarian Communist governance.
