

The Covid pandemic narrative was planned for years

There are multiple examples of precursors to the Covid response going back decades. It is almost as if the sponsors of these had a perfect crystal ball that could accurately predict exactly what happened in 2020. These prophetic precursors include:

- Rockefeller insider Dr Richard Day's speech, on 20 March 1969, to the Pittsburgh division of the American Medical Association.
- Patents on coronavirus begin to appear (1999+).
- The Dead Zone, (TV drama) episode 'Plague' (2003).
- The Rockefeller Foundation report in May 2010, in co-operation with the Global Business Network, called '*Scenarios for the future of technology and international development*'. The first scenario was called '*Lock Step*'.
- Anthony Fauci speech declaring that there would be a pandemic in Trump's presidency (2016).
- **SPARS Pandemic Scenario**: Johns Hopkins University document regarding planning for a pandemic (2017).
- The Rothschilds invest in ordering millions of PCR test kits for a coronavirus and supply them to all nations (2016).
- Bill Gates predicted a coronavirus-like outbreak – down to it starting at a Chinese market – in 2019 Netflix documentary show 'The Next Pandemic'. In 2015, Bill Gates predicted an epidemic would kill millions. In December 2016 Bill Gates warned President Trump right before he took office about the possibility of a pandemic. In a 2018 discussion about epidemics hosted by the Massachusetts Medical Society and the New England Journal of Medicine, Gates said a pandemic could happen within the next decade
- **Operation Crimson Contagion** (2019): On 13 August 2019 a four-day conference was held called 'Operation Crimson Contagion' in Washington DC. This planned for a global influenza pandemic, which featured: school closures, social distancing, medical countermeasures and a lockdown of the population. It featured visitors from China that carried a new virus to the USA.
- '**A world at risk**', report (September 2019): This is a report on global preparedness for health emergencies, which features an image of a coronavirus on the cover. It was prepared by the Global Preparedness Monitoring Board.
- **Event 201**: The Coronavirus High-Level Pandemic Simulation (18 October 2019). It was organised by the Bill and Melinda Gates Foundation with the World Economic Forum. It was held at the Pierre Hotel in New York City under the auspices of Johns Hopkins University's Centre for Health Security.

There are more but this will suffice. In the following table I want to show the correlation of the previous plans and simulations with what happened in the Covid crisis. This proves, categorically, that the pandemic was planned in every detail for many years. I will only look at four items. My main focus is Britain but the same scenario played out in most English-speaking nations.

Covid Event	Lock-Step (2010)	Event 201 (2019)	SPARS (2017)	Crimson contagion (2019)
New coronavirus threat called SARS-Cov-2. Symptoms vary from mild flu to severe pneumonia (Covid-19).	New influenza strain.	The sudden appearance of a new coronavirus that caused respiratory illness. Effects which varied from mild flu-like symptoms to severe pneumonia. The virus was modelled on SARS.	Coronavirus appears on the cover. Pandemic is a 'novel' coronavirus which they call 'SPARS'.	A global influenza pandemic spread from China.
Global control by the WHO.		National health ministries to work closely with the WHO.		
China imposes swift lockdowns.	China imposes swift quarantine.			
Claim (false) that asymptomatic people spread the disease.			Asymptomatic people spread the disease.	
Massive attempt to control the narrative by propaganda in the media (costing billions), heavy censorship, deleting of video channels and social media posts. Censorship was global.		Government must combat misinformation. The demand for global business and governments working together. Identifying conspiracy theories, which affirmed that the pharmaceutical companies and the UN released the virus.		
Demand for PPE.		The heavy demand for facemasks and PPE.		
Wash your hands.			Wash your hands.	
Claim that hospitals could be overwhelmed..		The fear that hospitals would be overwhelmed.		
Massive spread of fear by the government using broadcasts, statements, sponsoship of the media.		The spread of fear of infection.		

Use of PCR tests.		Development of diagnostics.	Use of PCR tests.	
Push for a quick vaccine.		Public expectation for a vaccine.		Medical counter measures
				Social distancing
Lockdown mandate on 23 March 2020.	Restrictions mandated.	Mandating a lockdown.		Lockdown of the population
Furlough scheme.		Pandemic financial support.		
Mandatory facemasks.	Mandatory facemasks.	Facemasks and PPE.		
Temperature checks.	Temperature checks.			
Closure of schools.				School closures
Coronavirus laws with penalties.		Penalties put in place for refusal to comply, including arrest and detention.		
Restrictions on travel.	International mobility halts.	Suspension of travel. Slow the movement of people.		
Many shops empty for months.	Many shops empty for months.			
Cashless society.				
Track and trace policies.				
Covid fatality rate confirmed as 0.15%.			CDC finally shows fatality rate of 1.1% compared to 4.7% estimate. After 18 months the CDC updated its IFR to 0.6%.	
Small businesses collapse. Tourism and hospitality devastated.	Small businesses collapse. Tourism and hospitality devastated.			
Vaccines quickly made available.		Vaccine available in the first year.	Vaccines quickly available.	
Vaccines get emergency use authorisation.			Vaccines get emergency use authorisation.	
Vaccines recommended for young children.			Vaccines recommended for young children.	
Opposers state that vaccines are unsafe and untested.			Opposers state that vaccines are unsafe and untested.	

Many people oppose vaccines and affirm benefit of vitamins and other treatments.			Many people oppose vaccines and affirm benefit of vitamins and other treatments.	
Minority communities are more vaccine sceptic.			Minority communities are more vaccine sceptic.	
Reports of adverse reactions begin to skyrocket.			Negative reports about the vaccine gets traction.	
Japan rejects the vaccines and succeeds with Ivermectin.			Japan rejects the vaccines.	
Pfizer bring out an antiviral drug based on Ivermectin.			A new antiviral drug is manufactured.	
Recession.	Deadly effect on economies.	Economic crash. Predicted economic loss of 0.7% of global GDP.		
5G masts erected all over the country and new infrastrucure in roads.	Development of tele-presence technologies for sophisticated communication.			
Reports begin to show massive waste of government spending, such as on Track and Trace systems that didn't work (£37bn). Many experts point out the errors of government 'science'.			Public react to realisation of poor government science regarding the virus and the vaccines and wasted money.	
Warnings of energy shortages.			Power blackouts begin to occur.	
Rise in multiple maladies (inc. bacterial pneumonia) as a result of facemasks and lockdowns.			There is a rise in bacterial infections. 40% of children get bacterial pneumonia. Antibiotics begin to run out.	
Wide publicity about adverse vaccine events in alternative media.			After two years the adverse vaccine reactions beging to get wide publicity. Chronic side effects begin to arise.	

Global supply chains break down.	Supply chains break down globally.			
Police overreach.		Martial law due to riots.		
Vaccine status being used for ID and admission.	Biometric ID brought in.			
Government becomes totalitarian.	A world of tighter top-down government control and more authoritarian leadership.			
Growing citizen pushback.	Growing citizen pushback.			
Plans for Internet of Things.	SMART tech brought in everywhere.			
Covid flatlining but facemasks and restrictions continue.	After the pandemic ended, facemasks and social controls continued and intensified.		The pandemic lasts three years and becomes endemic.	
Governments become very authoritarian.	Governments become more authoritarian.			
Multiple legal cases being brought against governments around the world, including the charges of fraud, crimes against humanity and murder. Global calls for Nuremberg II.			Politicians are accused of exaggerating the virus for political gain. Many resign.	

Review

Before the Covid crisis arose we must understand that many of the measures forced upon populations had never been enacted before, certainly in British history. How is it possible that, by chance, the precursors mentioned all these unusual interventions and then the government mandated them? These include:

- Facemasks.
- Social distancing.
- Universal temperature checks.
- Lockdown of healthy people.
- Termination of multiple civil liberties.
- Track and Trace policies.

- Mass PCR testing.
- Using PCR to diagnose an illness.
- The government using military behavioural psychology to inflict fear upon the population to engender compliance.
- Mandatory vaccines or lose your job.
- Vaccine passports creating an apartheid state.

Is it not more credible to suggest that the whole thing was planned by people in superior power controlling all English-speaking governments?
