

The next pandemic scare?

Introduction

I have long explained that the Covid crisis was nothing to do with a real virus pandemic but was a cover for a sinister set of goals by the ruling cabal. Gainsayers demean this as a conspiracy theory but the data keeps rolling in proving that there is a real conspiracy – it is no theory.

For example just a few items:¹

- Death statistics prove that there was no pandemic in 2020.
- There is no proof anywhere on Earth that SARS-Cov-2 exists as an unadulterated, isolated, purified virus in the real world.
- The goal was always mass vaccination on a rolling basis.
- The vaccines do not work but do cause harm.
- The reason for this vaccine programme is delivery of toxic and inorganic substances to achieve a number of objectives.
- These objectives include: depopulation, mass digital surveillance, plugging into a new central bank digital currency system, eugenics (sterilisation of some people types) and so on.
- The adverse reactions to the vaccine are completely off the scale of anything in history. Even the WHO officially admits that there have been over 2 million adverse events. Yet studies show that only 1% of events get reported and the system certainly inhibits people reporting (e.g. it takes a UK doctor half an hour of unpaid work to fill in the labyrinthine form). This means that the real death figures are in the hundreds of thousands or even millions already.

Since the global elite have long admitted that they want to cull the world population to 500 million (even inscribed on granite monoliths in Georgia), it is not surprising that a depopulation agenda is underway.

Despite the huge number of vaccine deaths already, the real purpose is for death to occur over the next four years gradually by stealth. This is to enable a cover for the vaccine deaths which will be explained as Flu or Covid, or something else. Many deaths will occur this winter from ADE,² which is already beginning. This is when a vaccinated person confronts a cold or flu virus in the world and their immune system overreacts. The cytokine storm destroys most of the organs of the body. Recent autopsies in America show that this has already begun.

However, there is a new fear agenda starting to be implied by the elite as a cover for vaccine injury.

The UK government is already laying the ground for mass deaths this winter by affirming that 60,000 people are going to die from flu. There are very likely to be serious colds and flu infections this winter as a direct result of lockdowns. These hindered the development of herd immunity to new strains which will hit the population all at once as cold weather

¹ I will not give sources here as I have done so repeatedly in previous papers.

² Antibody Dependent Enhancement, or viral interference.

assists infection transmission and immune systems are suppressed. There is already evidence of a very bad cold virus circulating.

Whether this will be a true cause of excess deaths or not, the government is already laying the ground for fear and covering up vaccine deaths. One way or another, there will be above average excess deaths this winter.

The Marburg Virus

The Marburg Virus is a very serious disease that is similar to Ebola (the same family). It is a haemorrhagic fever disease causing internal organs to bleed and clot, nearly always causing death. It has a case fatality ratio of 88%.

However, it is also a rare disease; there have only been 16 known deaths since 2005.

Despite its rarity (the last case was in 2017 in Uganda), the global elite have taken it upon themselves to start the warning that there is a coming Marburg crisis when there is no indication of that at all. Bill Gates (GAVI) and the WHO (Gate's lapdog)³ have issued warnings to this effect.

GAVI: 'The next pandemic: Marburg?' Article, 22 April 2021.
WHO Director-General, announced that a case had arisen in Guinea. 11 August 2021.
The NIH published a paper, 'Asymptomatic infection of Marburg virus', January 2021.

The elite has already developed a PCR test to 'prove' cases of Marburg. Primerdesign developed genesig PCR test in 2018. Why would a business wanting to make money go to the expense of developing a test for a rare disease?

The elite, via Soligenix, has also conveniently engineered a vaccine (RiVax) which is full of the serious toxin Ricin which has been genetically engineered. Again, what's the incentive for an expensive vaccine for something that has had no outbreak since 2005? This is being rushed through the approval process by the FDA. Soligenix shareholders include BlackRock Fund Advisors and Goldman Sachs.

So, we have the same pattern emerging as Covid:

- A new scary virus pandemic threat.
- A PCR test to prove it is Marburg.
- 'Proof' that asymptomatic people transmit this virus.
- A new rushed experimental vaccine filled with poison.

Why?

The reason is that one of the main reactions to the Covid vaccine is haemorrhagic events: blood clotting and internal bleeding. The more the spike protein proliferates over time and attacks various organs, initially the blood vessels, patients will develop haemorrhagic signs.

In order to deflect attention away from the vaccines, the true cause of these haemorrhagic events, Gates and company seem to be ready to blame Marburg Virus and deliberately cause a panic (a scared population is easier to brainwash and control). Fact checking firms

³ Gates is one of the biggest funders of the WHO, more than most nations.

will deny that deaths have anything to do with the Covid vaccine. In fact, the one used by the ONS is already lying by denying that Covid vaccinated people are more at risk of being infected with Covid and are being hospitalised more. The Daily Sceptic has exposed these lies with data from PHE. In fact, 87% of people in hospitals currently are vaccinated people.

Some pessimists believe that the cabal will actually release a real plague virus like Marburg to swiftly reduce the world population, but that it far too dangerous a strategy since it could backfire and spread to them and their families or their essential workers. There is no need for an external wild plague if there is a world already vaccinated with an internal stealth plague.

- The first vaccine severely suppresses the immune system. This is why vaccinated people can more easily catch Covid. The PEG content can cause allergic reactions and even death in some people. Other contents are visible under microscopes but their purpose is unknown. These include: tiny shards of metal that move under heat and self-assemble. Graphene oxide that is highly toxic. What looks like microscopic parasites of various shapes, including one with tentacles. Blood clots are commonly found after this shot due to the spike protein.
- The second vaccine makes the patient even more vulnerable to disease and adverse reactions. Patients have been examined and seen to develop serious autoimmune diseases, proven by blood-work. Blood clots more likely.
- Booster shot (third vaccine). Patient gets weaker still and more susceptible to disease. Blood clots even more likely.

In each case haemorrhagic fever can result.

The elite want populations to continue in a state of fear and lockdowns. But most people are now aware that Covid is a mild flu and that there are good treatments available. Most children are refusing the vaccine, to the consternation of the government. The Covid scare is beginning to vanish and people think that they are now returning to some sort of normal, albeit with vaccine passports. This is a delusion.

I hope that I am wrong, but I am not alone, in thinking that the elite cabal will initiate the Marburg scare this winter to continue their Great Reset plans and hide vaccine toxicity. This could be the following:

- Bombard populations by the mainstream media that there is a Marburg pandemic underway (the media has already begun mentioning it as a threat).
- Prove this by fake PCR tests.
- Restart the lying government pandemic panic fear-porn broadcasts.
- Re-impose all the Covid restrictions (facemasks, lockdowns etc.). Johnson has already warned that this may happen (Plan B) and has threatened a hard winter.
- Claim that the haemorrhagic fever in patients is Marburg when it is caused by the Covid vaccines.
- The hospitals will be overrun; especially as many staff have been fired for refusing the vaccine.
- Care homes will be overrun and collapse, especially as staff have been fired for refusing the vaccines.
- The Marburg vaccine programme will be rolled out and cause even more deaths from Ricin poisoning.
- There will be mass deaths like never seen before in British history.

Now I hope this scenario never occurs and that myself (and many others) are being over anxious. But the facts so far observed are worrying. This concern is further increased by multiple forecasts of a population collapse in the West by 2025.

Population predictions

In light of the known elite programme to kill certain populations we should note the recent population predictions which show a massive decline in western Christian nations. This is because the cabal hates Christ (being Luciferian) and has sought to destroy western societies since at least 1921. The focus of depopulation is 'Christian' societies.

I was first alerted to this when I saw that questioning Alexa revealed that Britain's population would reduce from nearly 68 million to the mid 20s in 2025.

I then started to notice more and more websites and publications showing a similar drastic reduction in population of all 'Christian' nations, such as Europe, America, Australia etc. while other pagan nations remained fairly stable.

Now I cannot analyse the working methods of such websites or find some of the primary sources (e.g. the Alexa source is inaccessible). But that doesn't matter. What matters is that a number of organisations are saying that by 2025 western 'Christian' nations are going to be decimated. One projection is a reduction of 53% (this is comparable to the vaccine uptake of 57%). I will give one technical analysis that has some substance.

In Jeremy James' paper, 'Satan's work: the planned collapse of Christendom' there are 'Deagel spreadsheets'. These show the following, amongst many others:

Country	2019 population	Population forecast by Deagel for 2025
USA	332	99
Canada	37	26
UK	65	14
Germany	80	28
France	57	39
Italy	62	43
Spain	50	27

So this spreadsheet proposes that 51 million British people are going to die in the next four years. Alexa appears to roughly agree with that.

In comparison, countries associated with the Chinese Belt and Road global infrastructure programme are forecast to have only minor losses (China, Russia, India, Indonesia, Brazil, Philippines etc.). These have vaccines that are not approved in the countries that will be decimated. There are 21 vaccines approved in different countries. The countries suffering decimation all use these vaccines: Pfizer, Moderna, AstraZeneca and Johnson & Johnson.

What is the evidence for this?

Jeremy James is referring to a spreadsheet that appeared on a website but has now been removed. Access to this data is accessible on websites that copied it before deletion.

Deagel is a private company online source for the military capabilities of the world's nation states (cf. *Jane's*). It is alleged to be a minor branch of US intelligence data collection. If you look at the website (Deagel.com) you will see that it is a technical data source and news update on military issues.

These figures come from a recent five-year forecast, which predicts a 70% reduction in the US population. The Deagel website is sophisticated and not some crackpot bedroom blogger. It also predicts the industrial output and military expenditure of each nation. The forecast was removed from the Deagel website in mid-2020 (this is why Alexa cannot access this particular data).

The Deagel report states,

The collapse of the Western financial system - and ultimately the Western civilisation - has been the major driver in the forecast along with a confluence of crisis with a devastating outcome. As Covid has proven Western societies embracing multiculturalism and extreme liberalism are unable to deal with any real hardship.

No one can argue with this since it is true. I have warned of the coming economic collapse and the weakness of Britain's 'Just-in-Time' supply chain is well known and utterly stupid. Look how quickly petrol disappeared even though there was no shortage of supply.

So a technical company, paid to analyse global issues with a view to military competence, suggested a massive population reduction of western nations in 2019, before Covid struck.

Now I make nothing of all this, I merely observe that it is being reported. However, such population reductions would make the elite very happy.

Conclusion

Most people still cannot conceive that the people in power are psychopaths with no empathy. They think that no such programme would be enacted and that the mess of the Covid crisis was just a series of incompetent decisions. The game is up on this scenario because too much data is now available showing that vile decisions were made to cause deaths, such as sending sick patients into care homes, denying access to Ivermectin, and prescribing morphine plus high levels of Midazolam to kill the frail. Add to that the Covid vaccine injuries and deaths. That cannot be incompetence; that is genocide.

A Marburg panic leading to a new poisonous vaccine is nothing different from the decisions that have already taken place. Do not allow yourself to be fooled if this scenario begins to appear. My purpose here is to forewarn and help you make sane decisions.

If you get sick with anything follow my advice:

- If at all possible, always avoid going to a hospital. Once in, you are a prisoner to their treatments. If you have to go in, give someone you trust power of attorney who can advocate for you, e.g. not to be vaccinated, DNR certified or PCR tested.
- Prepare for winter with: good quality organic food and back-up supplies (there will be panic buying as shortages continue). Have lemons and garlic on hand; mixing these with hot water is a good cold tonic. Chicken soup is a good food source when sick. Drink lots of water. Have lots of fermented food on hand.
- Avoid Big Pharma illness products, like cough syrup. Coughing is the body trying to sort a problem out and it should not be suppressed.
- Purchase good quality essential vitamins and minerals now. These should include: vitamin C and D, zinc, magnesium (not citrate; also avoid magnesium stearate), iron supplements (such as Spatone), and anything you believe to be necessary for your

condition. Vitamin D boosts your immune system and is good at fighting supposed Covid (flu). Vitamin C fights infections and boosts strength. Magnesium is an all-round useful vitamin. Zinc enables other nutrients to get into cells and work better. Iron is necessary for oxygen transmission and it gets depleted during an illness.

- Purify / filter your water.
- Have back up supplies for power cuts (wind-up lamps and radios, batteries, camping gas stoves etc.).
- Try to be part of a local support network so you can get help when needed.
- Above all, focus on God and his purpose. Do not be transfixed by the media or the lying government.

All indications, from multiple sources, are that the current crisis is going to continue until 2025 when the Great Reset is supposed to be fully initiated. Covid is now endemic and not a major threat yet totalitarian managers are ruining people's lives. One businessman was arrested and thrown off the Eurostar train at Lille because a female manager thought he had the wrong type of facemask while sitting in the buffet car. Incidentally, several people in this car had no facemasks because they were eating. This level of draconian stupidity and wickedness is still prolific. A woman with stage 5 renal disease in America was removed from the kidney transplant list because she wasn't vaccinated.

This crisis is not over. Don't be fooled but do be prepared.
